

WILL NOT ACT ON THE APPEALS NOW

District Board Will Not Take up Cases From This County For 2 or 3 Weeks

A. L. GARY RETURNS TO CITY

One Exemption Granted in This County on Industrial Claim Will Likely be Reopened

A. L. Gary, local appeal agent, returned last evening from Fort Wayne without having obtained a decision on the cases from here pending before the district board. The best the district board could do was to certify the names of those men having no claims for exemption. The board is rushed with work and it will be necessary for Mr. Gary to appear before the board again within the next two weeks when the appeals and claims will be taken up.

It will be absolutely necessary for the district board to act on the Rush county cases before October 5, when the second forty per cent of the men from here leave for the cantonment at Louisville as no guess work can be done in making up that forty per cent increment.

Mr. Gary would like to have remained in Fort Wayne and finished with the Rush county cases but the district board was not ready for him and it was only after hard work that he got the names of the sixty-one men who filed no claims certified back to the local board for service.

A total of twenty-four men will make the trip to Louisville from here Friday. The original list called for twenty-six but as two of the men in this increment are in the training camp the county will receive credit for them and thus will send only twenty-four men.

The only claim acted on by the district board thus far is that of Glen Smelser of Falmouth, who was given an exemption on agricultural grounds. It was reported today that his case may be reopened by the district board because of the precedent established. Smelser is a single man, living with his parents. His father and he farms 130 acres of land and if the board adopts the policy of exempting all single men working on farms it will be a difficult task to secure the county's quota, it is said. If Smelser's exemption goes through, it is believed the precedent established will work a hardship here and for

GOVERNOR'S FEVER LOWER

Is More Than Holding His Own in Fight Against Typhoid Fever

(By United Press.)

Indianapolis, Ind., Sept. 19.—Governor James P. Goodrich has more than held his own during the past twenty-four hours, according to a statement issued today. The governor's fever is going down. This is leaving him in a very weakened condition. During the night he suffered another hemorrhage but it was beneficial, according to the announcement, as it took the poison out of his system. His general condition was characterized as "satisfactory."

PROBABLY SINKS GERMAN SUBMARINE

American Armed Steamer Thought to Have Sent Down U-Boat Near Shetland Islands

BRITISH SINK ONE ANYWAY

(By United Press.)

London, Sept. 19.—An American armed steamer probably sank a German submarine in a fight south of the Shetland Islands, according to a dispatch from Bergen today.

The American steamer encountered a submarine engaged in sinking another vessel. The American ship opened fire and smashed the periscope of the U-boat. Another submarine appeared and fired two torpedoes at the American vessel. Both missed. British destroyers attracted by wireless calls responded, sinking the second submarine.

Six of the German crew were rescued.

WILL SETTLE SHIP STRIKE

Both Sides of Controversy in San Francisco Expect Agreement

(By United Press.)

San Francisco, Cal., Sept. 19.—Hope that a settlement of the strike which has tied up ship building in San Francisco would be reached before many days was expressed by representatives of both sides of the controversy when they went into session again with government representatives today. No announcement was made as to the progress made in the conference, but it was evident that both sides believe solution had been brought nearer.

WOULD WELCOME A CHANGE TO ARTILLERY

Sanitary Detachment Would Be Affected Whether Part or Whole Regiment Is Transferred

RUMOR REGARDED AS "SNOW"

(Special to the Daily Republican.)

Fort Benjamin Harrison, Ind., Sept. 19.—The members of the sanitary detachment of the Fourth Indiana Infantry would welcome a change to the artillery service, but the story that the transfer will be made is regarded as "snow" here—may melt before morning. Adjutant General Smith told officers he heard nothing of the rumor while at Hattiesburg recently.

The men say they prefer the artillery service. It would mean a complete change in drill and a mount for every man. If two battalions from the Fourth or the whole regiment is changed to the artillery it would affect the sanitary detachment.

No orders have been received to move to Hattiesburg, but the rumor is still current that the Fourth may be called at any time.

DEMANDS \$4,000 AND ACCOUNTING

Mrs. Winifred Joyce Alleges W. B. Joyce Has Rented Her Property For 17 Years

NEVER MADE AN ACCOUNTING

Alleging that he has attended to the renting of her property for seventeen years without making an accounting, Mrs. Winifred Joyce, widow of the late Austin Joyce, has filed suit against William B. Joyce, demanding an accounting and \$4,000.

Mrs. Joyce charges that for seventeen years he has collected rents, paid the taxes and made repairs on her property without giving her an accounting. The complaint also stated that he took \$500 of her money from the bank and bought property and that the property is in his name.

The plaintiff states she is feeble and not capable of looking after the property and she relied upon the defendant. The complaint set out that the annual rental from the property named in the complaint is \$200 and she has had no accounting covering a period of almost seventeen years. Chauncey Duncan represents the plaintiff.

FORECASTS CALL FOR 500,000 MEN

Secretary Baker Indicates More Conscripts Will be Summoned by Appeal For Money

ASKS \$287,416,000 FOR ARMY

(By United Press.)

Washington, Sept. 19.—Secretary of War Baker today submitted to the senate appropriations committee \$287,416,000 additional estimates for the army. He explained the imperative need of the money and asked that it be included in the urgent deficiency appropriation bill.

Baker in submitting the estimate forecasted a call for 500,000 more conscripts soon. He said:

"Submission of these estimates is necessary to provide facilities for the manufacture and storage of equipment for an additional half million men, in anticipation of a call for this number and in securing their supply of ammunition."

Continued on Page 8

HEATING PLANT BIDS EXCEED THE ESTIMATE

County Council to Make Additional Appropriation and Commissioners Will Readvertise

OCTOBER 20 IS THE DATE SET

The county commissioners failed to let the contract yesterday for the new heating plants to be installed at the jail and court house because the bids exceeded the estimate. Bids were readvertised for Oct. 20 and at the same time the county council will meet to make an added appropriation to cover a revised estimate.

The state board of accounts ruled that the old heating plant could not be sold for junk to the man receiving the contract and thus permitting the bidders to take the old plant into consideration when making a bid. The state board held that the old plant would have to be sold for junk separately and because of this the bids received yesterday were higher than had been expected. By taking in the old heating plant in the contract a better price would be received than if it was sold for junk, but the state board ruled this was illegal.

WOMAN 70 YEARS OLD EXHIBITS RARE PLUCK

Mrs. Freelove Peters Rides 80 Miles in Automobile After Breaking Her Left Arm

WOULDN'T DISAPPOINT FAMILY

Mrs. Freelove Peters, who will be seventy years old this month, exhibited pluck that would be commendable for one half her age, when she fell and broke her arm, but rather than disappoint relatives with whom she was going to a family reunion, rode eighty miles in an automobile before having the broken bones set, and then attended the reunion. Mrs. Peters is now visiting at Tipton, where she went with her son, J. W. Peters and family, and daughter, Mrs. Will Meyers and family, Sunday to attend the Gifford reunion.

Mrs. Peters was climbing into the automobile at her son's home east of the city when she fell and broke both bones in her left arm. She would not consent to calling a physician after the accident and delay the trip to Tipton, and she rode all the way suffering pain from the broken bones. After reaching Tipton and the bones were set, Mrs. Peters went to the reunion and enjoyed it immensely.

ALMOST 2 AND HALF MILLION IN 5 BANKS

Money on Deposit, as Revealed by Statements Today, Reflects Prosperity of Community

PROBABLY MOST IN HISTORY

With almost two and a half million dollars on deposit, the five financial institutions of this city, three national banks and two trust companies probably have on deposit more money at this time than at any time in their history. According to the statements of the banks, published today on page 5, the total deposits of the five Rushville institutions amount to \$2,418,186.10. This huge sum of money represents only that on deposit in the banks of this city.

In addition to the deposits the banks have total resources and liabilities amounting to \$3,783,103.95. These figures are based on conditions at the close of business Sept. 11. The deposits here indicate the prosperity of the city and county.

FOR OFFICERS' DEPENDENTS

Senator Watson Introduces Bill Providing Government Support

Washington, Sept. 19.—Senator Watson of Indiana has introduced a bill which requires the War Department to provide quarters or commutation in lieu thereof to officers of the army who have dependents. There has been much complaint in the army because officers with dependents are forced to pay for accommodations for their families. This is regarded as a hardship and a good many members of Congress are lined up to support the Watson bill.

DOLLAR PLAN IS SAID TO FIND MOST FAVOR

Method For Raising Money Library War Fund Week is Discussed at Richmond Meeting

MISS MARY SLEETH ATTENDS

Ways and means of raising their respective apportionments during library war fund week next week were discussed at a meeting of librarians and members of library boards at Richmond yesterday afternoon. Miss Mary Sleeth, local librarian, attended. Of the \$125,000 apportioned to Indiana, Rush county is asked to contribute \$245.

The plan of raising this amount which found most favor at the meeting yesterday was the "dollar plan." It is likely that an effort will be made to raise the amount with dollar subscriptions, but none will be prohibited from giving any sum over or under one dollar.

The million dollars to be raised in the United States will be used to provide reading materials for soldiers at cantonments, mobilization camps and hospitals.

COMMERCE FACES A TIE-UP

3,500 Men Employed on New York Docks Go Out on a Strike

(By United Press.)

New York, Sept. 19.—With 3,500 men employed on docks of the International Mercantile marine already striking New York commerce today faced a threatened tie up.

Fifty thousand men, according to officers of the longshore men's union are ready to walk out in sympathy with the men who are protesting against employing of strike breakers. There were hints today that

SEWER CONTRACT FINALLY AWARDED

Goes to J. D. Case For \$872 After Two Futile Attempts Are Made to Get Bidders

BENEFIT MODERN APPLIANCE

Treasurer's Report Shows \$25,064.48 on Hands the Last Day of August

After two unsuccessful attempts to let the sewer contract for West Second and North Oliver streets, the city council last night awarded the contract to J. D. Case for \$872. The estimate was raised after the two futile efforts to get bidders and the bid of Mr. Case came in under the new estimate. The sewer is primarily for the benefit of the Modern Appliance company and will be built as an expansion of the city sewer system. The contractor's bond was fixed at \$500 and the work is to be completed by December 15.

There was nothing of special importance before the council and only the routine business was transacted.

The water committee reported that it costs the city seven cents a thousand gallons to pump river water. The estimate was made to determine the advisability of entering into a contract for supplying the Big Four railroad with river water for its engines. At present the Big Four is using city water at the regular rates and the railroad believes this is costing too much money. The city was asked to figure on supplying river water. No other action was taken after the committee announced that the cost of pumping river water was seven cents a thousand gallons.

The city treasurer's report for the month of August was reported correct by the finance committee. The report showed that the city had a balance on hands at the close of business the last day of August of \$25,064.48.

A representative of an adding machine company appeared before the council with a proposition for a new machine for \$200 and in return would take in the old machine now in use there for \$40, making the new machine cost the city \$160. He will place a machine in the office for a trial. The machine now used by the city has about outlived its usefulness. It was purchased by the Black administration second hand and has been in service ever since.

No bids were received on the fire horse offered for sale and the

Will Soon Change Blue Hat Cords For Scarlet

Rumor Which is Apparently Authenticated That Co. B Will Be Changed to Artillery Keeps Camp Buzzing. Outfit is Moved.

NON-COMMS AND FIRST CLASS PRIVATES

By SERGEANT P. B. STAPP
(Special to the Daily Republican.)

Camp Shelby, Miss., Sept. 17.—(By Mail)—That the boys of Company B will soon exchange their blue hat cords for those of scarlet—in other words that they will soon be artillerymen instead of infantrymen was the rumor that has kept the whole camp buzzing since late yesterday. The rumor is based on knowledge coming from a semi-official source and is apparently authenticated by a sudden order for Company B to move from its present location in the infantry section of the camp over to the section that has been reserved for artillery. The company began moving immediately

after reveille this morning and was established in the new location before noon.

It is rumored in official circles here that the entire Third and Fourth Indiana Infantry will be transformed into artillery, consisting of two mortar batteries and the rest heavy artillery.

Not a single grumble was heard when the news of the change, accompanied by an order to move. Characteristic of the splendid spirit and cheerful willingness that they have shown ever since they were mustered in the men at once began preparations to transfer their belongings to the new camp.

Must Lose For Holding Paper 2 Years, Decision

John Parsons, Finding O. S. White Who Issued It Has Left State, Brings Suit Against First Indorsee.

SECOND MAN TO INDORSE IT IS IN ARMY

Can a person recover on a check nearly two years old, which was indorsed by three persons, by bringing suit against the only remaining indorsee in the county? Squire Samuel L. Newhouse yesterday held that it can't be done and found for the defendant.

On Oct. 23, 1915 Oliver S. White, an insurance agent here, gave a check for \$27.80 to Goldie Carr, a garage man at Milroy. Carr indorsed the check to James Sage, former postmaster at Milroy. Sage in turn indorsed the paper to John Parsons. All of this changing of hands for the check occupied a period of almost two years. Parsons attempted to cash the check but could get

no money, because White had moved from the state and his account at a local bank was closed.

Sage, the last indorsee of the check, is in the army and Parsons to get his money, brought suit against Carr. After reading law for about twenty-four hours Squire Newhouse decided Parsons could not recover from Carr and told the parties that anyone ought to lose if he carried a check for two years without cashing it. White, who gave the check, originally, is no longer a resident of the state and probably does not know that the last man holding the check was left holding the bag.

Richmond Champion Fertilizer Drill

Do not decide too hastily about your new drill that you are going to buy this fall.

Give us the opportunity to explain about one of the best drills on the market today. We cannot tell you all about it in this space.

Come and look it over for yourself.

DESCRIPTION—The fertilizer and grain feed are both driven by independent chains direct from the axle, heavy steel frame securely braced, 13-inch large disc with 6-inch opening, all metal tubes, and fitted with our specially constructed beveled edge disc fertilizer feed.

MUST CONSERVE THE COAL

Chairman State Public Service Commission Warns Consumers

(By United Press.)

Indianapolis, Ind., Sept. 19.—Coal consumers were warned that they must conserve the fuel supply by E. I. Lewis, chairman of the public service commission in a statement today.

"Winter will bring to this country the first realization that we are involved in war and the weakest point in our armor is our fuel supply," Lewis said. He stated that a fuel dictator would be appointed for Indiana by the federal government within ten days. He predicted great suffering would be experienced on account of the scarcity of coal.

TO LICENSE SUGAR MEN

Washington, Sept. 19.—The importation, manufacture and refining of sugar, sugar sirups and molasses will be licensed beginning Oct. 1, 1917, under executive order of the president. All persons, firms, corporations and associations engaged in manufacture or importation of sugar must secure a license before Oct. 1, the order said. Licenses will be obtained from the food administrator.

AMERICAN SHIP SUNK

(By United Press.)

London, Sept. 19.—The American steamer Platura was torpedoed and sunk with the loss of the captain and 8 members of the crew, the admiralty announced today. Forty-five survivors from the Platura were rescued. The vessel was owned by the Standard Oil company.

ESTABLISHES TRADE DAY

(By United Press.)

Fort Wayne, Sept. 19.—Fort Wayne's first "suburban" trade day was held today. Hereafter every Wednesday will be observed as "suburban" trade day.

WANT ADS BRING RESULTS

PROPOSES TO EXPEL SENATOR LAFOLLETTE

Resolution Introduced at Chamber of Commerce Convention Favors Petition to Congress

WISCONSIN MAN BACK OF IT

(By United Press.)

Atlantic City, N. J., Sept. 19.—A resolution proposing that the United States Chamber of Commerce petition congress to expel Senator LaFollette for unpatriotism and disloyalty was introduced today at the chamber of commerce war convention here. This was proposed by A. E. Winter of Green Bay, Wisconsin, LaFollette's home state. He declared the Green Bay chamber reflected LaFollette's reflecting disloyalty on the state.

Pleading with American business men to favor the use of foreign tonnage in American coastwise trade, Raymond B. Stevens of the United States shipping board today warned them that within six to eight months all American coastwise shipping will be seized for overseas duty.

A. C. Bedford, president of the Standard Oil company told the convention of American Business Men that the nation is using 18,000,000 more barrels of oil each year than it is producing but that reserve stocks will give the nation a sufficient supply for five years. He insisted that the automobile owners must practice economy in the use of gasoline.

SEES ADMISSION OF FAILURE OF A PLOT

England Believes Germany Hopes For Peace Before Russian Army is Reorganized

EDITORIALS ARE INSPIRED

(By United Press.)

London, Sept. 19.—England sees in the German peace feelers, admission of a Russian plot that failed. Germany now hopes to make peace stick before the Russian army reorganized by American aid can get into action. The German peace discussion is raging unhampered by censorship in the German press. No doubt was expressed here that the greater part of the editorials are inspired.

As observers here read the signs today, Germany now sees herself balked in Russia. Where Germany hoped to frighten Russia into a separate peace, the Teutonic leaders probably now see they have stung the new democracy into action.

ENTRANCE EXAMS HELD

Lafayette, Ind., Sept. 19.—Entrance examinations were held at Purdue university today although classes will not start until Sept. 26. Opening of the university was delayed until next Wednesday in order to give the farmer students more time for work at home. Arrangements have been made to admit students as late as Oct. 10 if they submit evidence from their employees showing the necessity for the delay.

COAL DEALERS MEET

winter with his son, Dr. A. G. Shauck of Arlington, was in Rushville today. Mr. Shauck has been living with his daughter, Mrs. Brown, and family, in Spokane for three years.

—Edward Meredith visited friends in Connersville last evening and attended the dance.

—Miss Jessie Anderson has returned from Oxford, O., where she spent the day yesterday.

—Miss Marie Clark left for Nashville, Tenn., today where she will enter a girl's seminary.

—Mrs. George Davis is spending a few days with Mr. and Mrs. Latham DeMilt in Indianapolis.

—Miss Helen Norris left for Lafayette today, where she will resume her work at Purdue University.

—Frank Hagnay arrived today from a trip to St. Paul, Minneapolis and several points in North Dakota.

—Lieut. Wendall Willkie, who is stationed at Camp Taylor at Louisville, Ky., is visiting friends here for a few days.

—Miss Lena Beale returned to her home in Indianapolis today after a two week's visit with friends and relatives here.

—Mrs. Rachel Jones returned to her home in Chicago today after an extended visit here with her sisters, Mrs. T. M. Friend and Mrs. Sarah Guffin.

—Miss Katherine Caron, accompanied by her mother, Mrs. Charles Caron went to Brown county, O., today, where she will enter Ursuline academy.

—Mr. and Mrs. Willard Amos and daughter Miss Mary and Mrs. Frazier Johnson returned last evening from a motor trip to Warsaw, where they were the guests of Mr. and Mrs. Lee Thomas.

—Mr. and Mrs. Paul Allen have returned from a two weeks visit in Muncie, Ind. Previous to that time they were at Danville, Ind. where Mr. Allen and E. R. Casady own a general store. Mr. Allen will remain here.

Days Pickings

The funeral services of William Combs will be conducted Thursday afternoon at 2:30 o'clock in the Glenwood Methodist church in charge of the Odd Fellows lodge. Burial will take place in the Glenwood cemetery.

Mrs. John Mabra entertained about twenty guests last evening at her home in East Eighth street, honoring Mr. Mabra's fifty-sixth birthday. After the pleasant evening, delectable refreshments were served.

A baby girl weighing six and a half pounds was born to the wife of Edward Frazee, formerly Miss Rita Read of this city, at their home in Orange last night. The baby has been named Jean.

The Odd Fellows will meet tonight at 7:30 o'clock to make arrangements for attending the funeral of William Combs tomorrow in Glenwood.

Mr. and Mrs. Walter Niles are moving from North Harrison street, to 835 North Jackson street.

Mr. and Mrs. Raseley have moved from 430 North Harrison street to 606 North Jackson street.

The Gem offers the feature drama "Environment," for the program tonight. Mary Miles Minter is featured and it is said to tell a fine story. Tomorrow the William Fox production, "Loves Law," will be shown in which Joan Sawyer is featured.

"Vanity," is the title of the feature drama at the Princess tonight. Emmy Wehlen is featured and it tells the story of a girl who resorts to gambling in an effort to buy beautiful gowns. In addition, "Pathé News," will be shown. Tomorrow Edith Storey and Antonio Moreno will be seen in the feature, "The Captain of the Grey Horse Troop."

Webster's Carbon paper. L. C. Hiner.

KERENSKY VIRTUALLY PRISONER IN PALACE

Armed Mobs, Delirious With Power, Roamed The Streets of Petrograd Last Week

FIRST STORY OF LAST REVOLT

By WILLIAM G. SHEPHERD
(U. P. Staff Correspondent)
(Copyright U. P. 1917)

Stockholm, Sept. 19.—At the moment when Korniloff's revolt was at its height Russia's "peace at any price" fanatics were in the saddle in Petrograd, Premier Kerensky was virtually a prisoner in the palace and armed mobs, delirious with power roamed the streets.

This story of wild excesses, of growing power of the extreme radicals and of Russia's perilous situation of the past week can now be told for the first time from this neutral port. The censor prevented it at Petrograd.

When rebellion menaced Petrograd Premier Kerensky, searching for defenders released and armed the Kronstadt sailors and workmen who last July terrified the city. He hoped to send these men against the rebels.

They instantly assumed control of the city's streets. Great motor trucks loaded with the terrorists of July roamed about the city unhampered. They assumed control of the workmen and soldiers congress at Petrograd. They sought to impose a resolution for instant peace on what remained of Russia's governmental machinery. They demanded Kerensky's removal immediately. The president of the council alone prevented such action.

FAVORS EXAMINATION OF ALL REGISTRANTS AT ONCE

(By United Press)
Indianapolis, Ind., Sept. 19.—Jesse Eschbach, state conscription agent, has recommended that the exemption boards be allowed to continue with their work of examining registered men until every man is examined. The recommendation was made in reply to a request from the war department to Governor Goodrich asking if the plan of continuing the examinations was favored in Indiana.

PUBLIC SALE

OF REAL ESTATE

The undersigned will offer for sale at auction, at the northeast door of the Court House in Connersville, on

Saturday, Sept. 29, '17

his farm of eighty-six acres, more or less, situated one and one-half miles southeast of Connersville, and one mile south of East Connersville, on the Brookville pike, known as the Milton Sparks farm.

DESCRIPTION OF FARM—This is a splendid farm, admirably situated and highly productive. It is second bottom land and is nearly all tillable. It is an excellent stock and grain farm. Property is improved with an eight room frame dwelling, in good repair and has good barn and outbuildings. An orchard lies near the house. Possession can be had immediately.

Sale Will Commence at 2 O'clock P. M.

TERMS OF SALE—One-third of purchase money cash; one-third in six months and remaining one-third in one year from date, deferred payments to be evidenced by mortgage on real estate sold. Notes to bear interest at the rate of six per cent. Parties desiring to look over the farm will be accommodated by either Mr. Wait or Mr. Flannagan, who will convey them to and from city.

JOHN T. WAIT

COL. WILLIAM FLANNAGAN, Auctioneer.

Farm for Sale

Wednesday, Sept. 26, '17

At Auction, on September 26, the undersigned will offer for sale on the premises three and one-half miles northwest of Connersville, at one o'clock p. m. his

Farm of One Hundred and Thirty Acres

This is one of the best farms in Fayette county—creek bottom land and highly productive. Farm is improved with eight room, two story frame dwelling; has large barn and good out buildings.

As owner is retiring from farm, all his live stock and farm property will be offered for sale on the same day. Personal property sale to begin at ten o'clock. Sale of farm at one o'clock.

For further particulars write

FIGHT FOR YOUR LIFE

Duty Demands Robust Health

Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by ill and ails. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a pray to ill after all.

You will not find this class of persons in the hypoferin ranks. No unhealthy, dull, draggy, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferin stands for sound body and sound mind—it is the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferin contains those mighty strength-producing agents, lecithin and iron peptone, in a form best adapted to the body and its organs. Its ingredients are absolutely necessary to the blood. In nine cases out of ten a run-down condition, sallow, pale complexions that "all in" feeling and frail bodies are due to lack of lecithin-and-iron peptone in the system.

Your mental and physical strength and endurance depends upon a lecithin-and-iron peptone laden blood: steady, dependable nerves and a healthy stomach. With these you can meet life at any angle.

This wonder tonic, hypoferin, which is as perfect a science can get to, meets every essential demand of the human organism. It is safe and sure and a boon to run-down, worn-out men and women. Hypoferin means nature's own way of bringing color to the cheeks, strength to the body and keeping the vigor and buoyancy of youth. The powder and paint way of effecting beauty need not be hypoferin women and girls. Their blood, filled with nature's beauty stores, creates conditions that give firmness and grace to the body and the glow of health to the cheeks.

No need of going through life sickly and always feeling miserable in the age of medical science. Join the hypoferin ranks. It puts into you the springy snap and vigor you ought to have and puts life into your body and mind that inspires the confidence that you confront the world on an equal footing with anyone.

Hypoferin may be had at your druggist's or direct from us for \$1.00 per package. It is well worth the price. The Sentinel Remedies Co., Cincinnati, Ohio.

CHIROPRACTIC

The ONLY science ever discovered for eradication of disease by going directly to the cause.

Modern Wandering Jew

The People's Council is the modern Wandering Jew. Tabooed in North Dakota, stifled in Minnesota and barred from Wisconsin, the organization has nothing to do but move on, the same command which sent the classic restless one through the ages. Now Scott Nearing, the irresponsible college professor whose home was raided at Toledo, Ohio, the other day and papers seized to determine his anti-war activities, has assumed charge of the Peoples Council work in New York. In this connection, the Muncie Press says of Prof. Nearing's activities:

The papers of Prof. Scott Nearing, of Toledo, have been seized by the federal authorities because of alleged seditious activities of the Professor. Nearing is one of the contributing editors of the Indiana Forum and other Indiana administration organs which have recently been lambasting Senator James E. Watson on the basis of the printed misrepresentations of his Roanoke, Va., speech, on the ground that Senator Watson has been guilty of sedition. If the Forum can't keep its own editorial staff out of the hands of the federal authorities because of their seditious writings, how can it expect to successfully regulate the utterances of Senator Watson?

Save Own Vegetable Seed

Home gardeners as well as truck growers who find seed of favored varieties difficult to secure or high in price would do well to save their own seed, according to the United States Department of Agriculture. The saving of seed from beans, peas, corn, peppers, okra, egg plant, squash, cucumbers, muskmelons and watermelons is very simple, the chief requirement being to select seed from good plants. Obtaining seed from tomato, radish, lettuce, kale, collards, cabbage, kohlrabi, beets, carrots and mustard, while not so simple, is not beyond the ability of any amateur gardener.

A newly published Farmers' Bulletin, "Saving Vegetable Seeds for the Home and Market Garden," (No. 884) which will be supplied free by the United States Department of Agriculture, explains in detail how to gather and cure seeds commonly needed by truck growers.

Growth of U. S. Trade

Exports from the United States to the neutral world have doubled since the beginning of the war, and to the belligerent world have trebled. A compilation by The National City Bank of New York shows that exports to the neutral sections of the world other than those of Europe were, in the fiscal year 1917, \$1,838,000,000 against \$877,000,000 in the fiscal year 1914. To neutral Europe the total for 1917 was \$414,000,000 against \$184,000,000 in 1914. This makes the total exports to the entire neutral world, European and non-European, in 1917 \$2,252,000,000 against \$1,061,000,000 in 1914, and to belligerent Europe in 1917 \$4,042,000,000 against \$1,304,000,000 in 1914. The increase in exports to the non-European world is 110%, to the entire neutral world 112% and to the

belligerent countries of Europe 210%.

If you love your neighbor as yourself, you will not have to lie about him after he is dead.

Crowned heads are a nuisance in Europe, but they often come in handy in a close card game.

WILL SOON CHANGE BLUE HAT CORDS FOR SCARLET

Continued From Page 1

One who visited Company B when it was encamped at the Rush County fair ground would scarcely recognize the outfit now. Due largely to the untiring efforts of Captain Kiplinger and Lieutenants Blackledge and Kreber, coupled with the eagerness of the men to learn, the organization has taken on a very military aspect that is enhanced by the resplendence of brand new uniforms for every man, and guns.

Guns! To the soldier there seems to be magic in the very name. The men of Company B are no exception. When the new Springfields were issued the company it kept the officers on the alert to prevent the men drilling with them after dark, so anxious were they to master the manual of arms. During the past week the company has had several hours of drill in the manual each day and the majority of the men are beginning to handle their rifles like veterans. There are a few, however, who persist in ducking their heads when bringing the piece up to right shoulder arms.

The company has been here just four weeks but the men are rapidly becoming acclimated. This is evidenced by the rapid disappearance of the few cases of homesickness among several of the boys and the growing tendency to sing on every possible occasion. The company discovered it had a composer or two in its midst and soon after reaching Camp Shelby these bards sharpened their pencils and soon had several catchy parodies written which were set to popular airs of the day. The company seemed to take to singing like a duck to water and now every hike is enlivened by swinging march melodies booming from the lusty lungs of a hundred and fifty dustbrowned Hoosiers.

After the day's drill and the evening mess is over the favorite occupation of the boys is to gather around a camp fire near the company street and sing. Parodies are sung on everyone from the Captain to the kaiser. One of the favorites is one dedicated to Pat Devaney, sung to the tune, "Ireland must be Heaven." Pat is one of the cooks and a universal favorite with his ever-ready wit and County Cork smile. The other evening while about 50 of the company led by big Bill

Peters of Connersville was singing this ditty, General Lewis happened to chance by in his car. He ordered his chauffeur to stop, listened until the song was finished and then had the boys sing it over again for him, apparently greatly pleased.

Now that the men expect soon to be in the artillery they are singing a ditty set to the tune "When Johnny Comes Marching Home" which runs something like this:

We are the boys of Battery B
Of the Field Artillery;
We left our homes in old Rushville
To go across the sea,
We used to walk, but now we ride
And carry a pistol by our side—
Good-bye Doughboys, 'we're off for
Germany.

The most welcome tune the boys have heard since their arrival was blown by Bugler Theobald just before reveille on the morning of September 13. This was pay day call. The men were paid off that afternoon. The only gloomy face in camp was that of Sergeant McCoy. He declared that he "sure would be out of luck" being paid on the thirteenth. His pay this month amounted to \$39.13, just three times 13 and 13. The combination was too much for him.

Ten new non-commissioned officers have been warranted and ten privates promoted to first class privates in the company. Thomas V. Price of Greensburg, has been made supply sergeant. Telles Landon and Letcher A. Pope have been promoted to the grade of sergeant, George Myers, Carl Peters, Charley Pea, Hartford Salee, Paul C. Koons, Jess Taylor and Cleo Emsweller have been raised to the grade of corporal.

The following men have been created first class privates with an increase of three dollars a month in their pay: Charles Cortelyou, Elmer Hendriks, John Colter, John Wilkinson, Glen Grose, Chester A. Neal, James L. Scott, Gordon Vanatta, Ira Fultz and Frank Nicholson.

WILL HAYS SPEAKS

(By United Press)

Lafayette, Ind., Sept. 19.—Will H. Hays, chairman of the state council of defense, was the main speaker on the program of today's sessions of the annual convention of the Indiana Farmer's Congress. J. H. Biddle, of Remington, president of the state association presided at the meeting. G. I. Christie, state food director will speak tomorrow on the good results obtained from the campaign for increased food production in the state this year.

Right Now Is a Good Time

to acquaint yourself with this store's magnificent stocks of new merchandise and learn what beautiful styles and excellent values and what painstaking service awaits you here.

We urge you to come and see the new dress goods, silks, ginghams, percales, coats, suits, furs, sweaters, whether you come to buy or not.

We urge you to compare the values we offer with what you can get elsewhere. It's to your own best interests to do so.

We urge you to investigate the many exclusive advantages in style, quality, service and price offered you at this store.

We urge you to find out for yourself, by test, of the goods we sell, that nowhere can you get more real value for your money than here. We will not let a customer be dissatisfied with anything bought here, if we know it.

THE DAILY REPUBLICAN. RUSHVILLE, IND.

PROPAGANDA ON TO RETARD CONSERVATION

Is Being Carried on in Sixth District, Judging From Reports
Rep. Elliott Receives

BELIEVED ANTI-WAR SCHEME

Washington, Sept. 19.—Judging from reports which have reached the office of Rep. R. N. Elliott from various parts of the Sixth Indiana district, a propaganda to retard food conservation has been in general progress. Rep. Elliott, who was active in promoting food conservation throughout the district he represents by distributing hundreds of government bulletins on home canning and drying of fruits and vegetables, has carefully investigated these reports of contemplated food confiscations and has found them to be without any foundation of fact, as evidenced by a statement just promulgated by the department of agriculture.

At first it was believed the report of food seizures was the work of "confidence" men. So general has the circulation of this report become, however, that it is now believed it is a part of the anti-war propaganda with the purpose of causing an insufficient food supply for the American people throughout the winter months.

Announcement has been received here of the wedding of Miss Beulah World of Salt Lake City, Utah and George Skipton of Pittsburg, Penn., son of Mr. and Mrs. G. W. Skipton of this city, which took place last Thursday evening at the home of the bride, the Rev. P. A. Simpkin officiating. After the ceremony a formal reception was given. Mr. and Mrs. Skipton arrived here today for a visit with Mr. and Mrs. G. W. Skipton before going to Pittsburg where they will make their home.

* * *

About eleven members of the O. N. T. club were entertained by Mrs. R. H. Jones yesterday afternoon at her home in North Perkins street. Knitting and fancy work made a delightful pastime for the guests and the hostess served a well appointed course luncheon. Mrs. George Osborne will entertain the club in two weeks.

* * *

Mrs. Richard Beale, assisted by Miss Minnie Beale and Miss Laura Meredith, entertained the members of the Woman's Missionary society of the First Presbyterian church, yesterday afternoon at her home in North Harrison street. A program was carried out as follows: Devotional, Mrs. Holmes. Latin America, Chapter 5, Mrs. Carr.

Mrs. John Boyd, the leader, and several of the members gave current topics on the "Home Missionary Work in Clinton and Gary, Ind." these cities being so thickly populated with immigrants. The next meeting will be with Mrs. Pierson, October 16.

* * *

Twelve members of the 1917 Embroidery club and three guests, Mrs. Frank Hayes of Indianapolis, Mrs. Lon Innis and Mrs. C. H. Houghland were entertained by Mrs. Charles Stewart, yesterday afternoon at her home in Milroy. The ladies were entertained with sewing and fancy work, and the hostess served a two course luncheon.

* * *

Miss Mary Lee of Los Angeles, Cal., who has been the house guest of Mr. and Mrs. Donald Alexander for the past few days, has gone to Indianapolis for a visit before returning home. Hubert Alexander gave an informal evening party Saturday evening at his home northwest of this city in her honor.

* * *

The Woman's Missionary Society of the St. Paul's M. E. church will meet with Mrs. D. D. VanOsdol tomorrow afternoon at 2:30 at her home 212 West Third street.

* * *

The Epworth League of the St. Paul's M. E. church will hold a military social Friday evening at the church. Everyone interested is urged to attend.

Social Calendar

Thursday

Yomo club with Mrs. Norman Crum, 839 North Jackson street, in the afternoon.

Grand club with Mrs. Phil Wilk, 622 North Harrison street, in the afternoon.

Auction Bridge club with Mrs. Jack Knecht, in the afternoon.

Happy-Go-Lucky club with Mrs. Charles Mauzy, 611 North Harrison street, in the afternoon.

Ladies Aid society of the Catholic church with Mrs. Joe Caldwell at her home west of this city.

Woman's Home Missionary Society of the St. Paul's M. E. church, with Mrs. D. D. VanOsdol, 212 West Third street, at 2:30.

Mr. and Mrs. Alva Webb entertained several out-of-town guests at their country home southwest of this city with a chicken dinner yesterday. The guests included Mr. and Mrs. Herbert Jones and son Irvin of Anderson, Mr. and Mrs. Martin Plessinger and family of Greenville, O., Mr. and Mrs. Claud Krammes and family of Alpine and Miss Bertha Elliott of Fillmore.

* * *

Mrs. Chauncey Duncan was the charming hostess to about eighteen members of the S. E. T. Embroidery club, yesterday afternoon at her home in North Perkins street. The guests whiled the pleasant hours away over knitting and needlework. Splendid refreshments were served by the hostess. Mrs. George Helm will entertain the club in two weeks.

* * *

Honoring the birthday of Elvin Cook, a number of his friends and neighbors spent last evening with him at his pretty country home west of this city. The affair was in the form of a surprise pitch-in supper.

A chosen color scheme of red, white and blue was used in the living room and the same colors were used on the table. Games and dancing featured the evening and the guests included Mr. and Mrs. Fred Lockridge, Mr. and Mrs. William Brown, Mr. and Mrs. Carey Cross and son Russell, Mr. and Mrs. William Lockridge, Mr. and Mrs. Harry Kennedy, Mr. and Mrs. Will Case and sons Deryl and Robert, Mr. and Mrs. Jesse McDaniel, Mr. and Mrs. Clarence Lovett and daughter Mar-

MUST FIND USE FOR MANY PRODUCTS

High Prices Make It Necessary to Study Possibilities of Utilizing Home Grown Products

BARNARD RECOMMENDS CORN

Many Appetizing Dishes Can Be Made And It Is Wholesome As Well

(By United Press.)

Indianapolis, Ind., Sept. 19.—Necessity for making use of products which have not been generally recognized as human food in the past was emphasized by Dr. H. E. Barnard, pure food and drug commissioner for Indiana, today. He said:

"When the wheat crop of this country and of the world is almost certain to be scanty, when the demands for food even in this land of plenty is so great that high prices rule the market, it is time for study of the possibilities for using our home grown products here-to-fore unutilized. A man of experience recently remarked that he had planted a large part of his garden with field corn and had intended to buy a coffee mill with which to grind it in order that he might feel secure against famine and prohibitive prices. His hearers smiled because he is well-to-do and used to comfortable living, but there was something more than jocose extravagance in what he said. He had traveled widely and observed with interest the grains men used for their staple food. With the possible exception of wheat and rice he had nowhere found so palatable and nutritious a grain as Indian corn. Even at present prices a sufficient amount of corn for use on the family table once or twice every day can be had for a moderate sum. Ground coarse in a cheap hand mill or even in a coffee mill it is the hominy or samp of New England ancestors. When it is sifted the finer meal which it supplies can be used for corn bread, hasty pudding or the corn pone and spoon bread of the South, the coarser hominy after being covered with water so that the hulls of the grain may rise and be skimmed off should be cooked until each particle is thoroughly done. This product can then be eaten with milk or fried and served with syrup.

"Besides camp and Indiana meal there is the hulled corn of New England or "big hominy" of the south. To make it the corn in first boiled with an alkali. Wood ashes were once used but baking soda will do as well, and washed in five or six waters. In the process the alkali is removed, the hulls come away, the grains swell and provide a capital dish when properly salted and eaten with milk or served with the meat course.

"Children almost always like dishes made from corn and the man whose appetite has not been too greatly satisfied realizes what Emerson meant in saying "wholesome as maize."

"The sweet corn which is growing in our gardens beyond our present needs should be picked while still green and the kernels cut off and dried over a slow fire. The corn may be allowed to ripen on the stalks and then shelled in mid-winter it may be ground in a hand mill and used in many helpful ways.

"This is a good year in which to get acquainted with corn, the most valuable of all our crops. The acreage our patriotic farmers planted last spring is by far the largest in our history. We should use it instead of wheat flour in every possible way."

garet, Mr. and Mrs. Sherman Young and son Roscoe, Mr. and Mrs. Fred Forry and family, Mr. and Mrs. Charles Andrews and family, Vallie Hilleman, Marie Cross, Bernie Bentley, Louise Cross, Elvira Cook, Floyd Cross, Harold Case, William Stewart, Clyde Bradley, Ralph Clarkson, Jesse Levy, Ernest Levy, George Stout and McKinley Lockridge.

BAPTISTS IN SESSION

(By United Press.)

Bluffton, Sept. 19.—The seventy-seventh annual session of the Salmonie Baptist association was opened here this morning. The sessions will continue today and tomorrow.

Smart Designs, Fashionable Colors, Fine All Wool Fabrics Represented in This Showing

Wooltex Suits for Style and Distinction

To the many women who look to us for the assured styles of each season, we announce a notable showing of Wooltex suits, just out of the boxes.

These are suits that you will want all the more to see, because of their sound value at a time when conditions are making values in general rather uncertain.

In such smart fabrics as Burella, Scotch Tweeds, Gaberdine, Poiret Twill, Oxfords, Broadcloths and Velvets, you will find military, Russian, conservative tailored, and many other desirable effects

The fabrics are all wool, with that exquisite tailoring you have come to expect in a Wooltex suit. We suggest an early inspection of these unusual suits — exclusive with this store.

FOR CHILDREN'S SCHOOL WEAR

we are offering some splendid values in Wash and Wool Dresses, Raincoats, Cloth Coats, Sweaters, Underwear, Hosiery and Shoes. Special prices on remnants of wool fabrics enough for school dresses.

WOOLTEX GARMENTS

FOR THE GIRL GOING TO COLLEGE

there is nothing she will need more than a pretty serge dress. Our Betty Wales dresses are fashioned especially for her, and there are scores to choose from. Our stocks include all necessities for college girls.

HUMES-BUELL SHOP

NOTICE TO BIDDERS

The Board of Commissioners of Rush County, Indiana, will receive sealed bids up until 2:00 o'clock p. m. on

SATURDAY, OCTOBER 20, 1917,

at their office in the Court House in Rushville,

Ind., for the remodeling of certain portions of

the basements of the Rush County Court House,

Sheriff's Residence and Jail in Rushville, Ind.

and the reconstruction of the steam heating sys-

tems therein, together with certain minor

changes in the plumbing and wiring systems in

accordance with the drawings and specifications

in general conditions of the contract, prepared by

McGuire and Sherrill Architects, which docu-

ments will be ready for bidders at their offices,

235 Indiana Pythian Building, Indianapolis, Ind., and on file at the offices of the State Board of

of Accounts, Indianapolis, Indiana, and W. H. McMillin, Auditor of Rush County, Rushville, Indiana, and after Saturday, August 18, 1917.

(a) Proposals shall be made in writing and to

10 o'clock a. m. and shall be delivered in a sealed

envelope addressed to W. H. McMillin, Auditor,

Rush County, Rushville, Indiana, marked "Pro-

posal," signifying thereon the title of the work

and the name of the bidder.

(b) All signatures shall be in long-hand; all

blank spaces fully filled in; and the completed

form shall be without interlineations, altera-

tions or erasures.

(c) Proposals will be considered singly on the

following branches of work: (1) General Con-

struction Remodeling; (2) Steam Heating Sys-

(3) Alternate Proposals.

(d) Each proposal shall be accompanied by a

bond in a sum equal to the amount of the pro-

posal and payable to W. H. McMillin, Auditor,

Rush County, Rushville, Indiana, and shall be

obligated to accept the lowest or any other

bid submitted.

(e) A deposit of Fifteen Dollars (\$15.00) will

be required of prospective bidders for each set

of drawings and specifications taken from the

Architects' offices, which amount will be re-

fundable in full in case the following two con-

ditions are complied with, viz:

(1) The return of the drawings and specifica-

tions to the Architects within six days of the

date of their leaving their offices.

(2) The delivery to the Board of Commis-

sioners of a bona-fide proposal at the time and

place fixed for receiving proposals. Should the bidder fail in the observance of either of these conditions, he shall be entitled to a rebate of Five Dollars; should he fail in the observance of both conditions, he shall not be entitled to a rebate. All rebates shall be conditioned upon the return of the drawings and specifications in good condition to the offices of the Architects.

By order of the Board of Commissioners of Rush County, Indiana.

W. H. McMillin, Auditor.

MAN KNOWN HERE SEES AN AIR RAID WAR SPIRIT IS PLENTIFUL AT I. U.

C. C. Lyon, War Correspondent, Who Married Andersonville Girl, Describes Experiences

WIFE AND SON RECENTLY HERE

Gives Word Picture of Excitement in His Hotel When Warning of Raid Is Seounded

C. C. Lyons, a former Muncie newspaper man who married Miss Lula Scott of Andersonville and frequently visits in this city and county, is now a correspondent abroad and he has written a description of a German air raid on Paris which he witnessed.

Mr. Lyons went to France with General Pershing's first expeditionary force. He had to have all of the equipment of a U. S. marine before he could go. Mrs. Lyons and son Scott, age five, endeavored to go with him, but they were advised by government authorities not to because of the child. Mrs. Scott and son were here only recently visiting Mrs. Mary Bohannon and other relatives. They are now in Connerville. Ed Scott of Andersonville and Wallace Scott of Company B, Fourth Indiana Infantry, are brother-in-laws of Mr. Lyons. He writes as follows from Paris:

Here is a picture of Paris as I saw it during a German air raid. About 11 o'clock the fire department motors pounded the streets blowing siren whistles that aroused everybody from bed. Now that the raid is a matter of history I recall that one of its most terrifying features was the amount of noise the fire departments made.

I was stopping at a hotel whose chief patronage comes from Americans and British. At the first warning blasts, the French hallman, hired because of his proficiency in English, pounded on one door after another, calling out:

"Darken your lights! Darken your lights!"

Soon the hotel was in pitch darkness. The night itself was inky black and the entire city was canopied with thick, low-hanging clouds. There was hardly a star to be seen.

The four sides of the hotel inclose a spacious court. From the amount of gabbling, it was evident that most of the guests were at their windows watching for the German machines.

Across the court, a woman was becoming hysterical.

"Oh George, what shall we do if they hit this hotel?" she implored her husband.

A large audience awaited George's solution. George was quick with repartee.

"What do we care Mabel?" he said convincingly, "we don't own it, do we?"

This venerable joke, cracked for the first time on the Ark sounded excruciatingly funny there in the darkness as we waited for the German bombs to fall on us, and George got a round of applause from every opened window.

Anyway, it broke the tension. "Why stay here and be killed? Let's all go down into the street and die," another humorist a few floors down suggested.

It carried unanimously. In about 10 minutes we were in the street. The fire motors were still rushing by blowing their whistles.

We all went across to the Tuleries gardens and sat on the stone steps.

But the real situation proved entirely different from the story book description of air raids.

The few Frenchmen out at that hour passed us swinging their canes and chatting about subjects far removed from bombs.

About this time a number of stars appeared in the sky to the east of Paris.

"It will get lighter, and then it will be easier to see 'em," said a Britisher, noting the stars.

But pretty soon the "stars" began to move, and then we discovered that they were in reality French airplanes that had taken to the air to defend Paris against the invaders.

At times it seemed as if the entire eastern sky was in motion as if the

Military Course of Some Kind Appeals to Students at Opening Today

ENROLLMENT TO BE SMALLER

Practically All Girl Students Enter Red Cross Classes—Drill For Boys

(By United Press.)

Bloomington, Sept. 19—War spirit predominated at the opening of Indiana university this week. War courses were the favorites, among both men and women. Practically all of the girl students at the university registered for the Red Cross classes which will be under the direction of the National Red Cross association. The courses to be given include first aid, surgical dressings, making of Red Cross garments, civilian relief, food conservation, social service, elementary hygiene and home care of the sick.

A course in military science and tactics was a favorite with the men students. Comrades in the geology department, giving students a knowledge in may reading and topography, were also given considerable attention.

Nearly all of the law students enrolled for military law course and a large class was ready to start the study of aeronautics and construction of military aeroplanes.

Although no figures were available on the total enrollment, it was practically certain that it would be at least 10 per cent under that of last year when about 3,000 students were registered.

The faculty is making a greater effort than ever before to get every person interested in some form of physical training. All men students in the freshman and sophomore classes will be required to give three hours a week, at least, to military drilling.

It was stopping at a hotel whose chief patronage comes from Americans and British. At the first warning blasts, the French hallman, hired because of his proficiency in English, pounded on one door after another, calling out:

"Darken your lights! Darken your lights!"

URGED TO REPORT PEOPLE IN SERVICE

Persons Knowing Those Whose Names Have Not Been Sent to Committee Asked to Act

ONE MORE HEARD FROM TODAY

Persons knowing Rush county men or women in some arm of the war service, excepting Company B and the sanitary detachment of the firm name of George R. Sider and Fourth Indiana, whose names were not published in the list last week, was heard by a jury in circuit court still urged to report them to the today. The case was sent here on committee appointed by the County a change of venue from from Han-Council of Defense to keep a permanent record of Rush county's war county and the case involved the record. The committee wants the sale of a milking machine to the name of the company, regiment, defendants who are engaged in the branch of service, date and place of dairy business.

The case went to the jury late location, date and place of birth this afternoon. Not much difficulty was experienced in getting a jury as very few of the men called had ever heard of the case.

The case of Michael Madden against the City of Rushville will be heard tomorrow by Myron C. Jenkins of Greensburg, who will act as special judge. The suit is on a claim for labor alleged to have been performed for the city under the former administration.

One name heretofore unpublished, making eleven in all which have been reported since the first list was published, is that of William M. Winslow, son of Mr. and Mrs. R. R. Winslow of Carthage. He was born Aug. 12, 1898 and enlisted in the regular army Aug. 23 of this year. He is a member of Company L, Tenth Infantry and is now stationed at Ft. Benjamin Harrison.

POPE HAS MADE HIS LAST PEACE OFFER

He Believes War Will go on Until Full Effect of America's Vast Powers Has Been Felt

SEES PEACE NOW IMPOSSIBLE

(By United Press.) Washington, Sept. 19—Pope Benedict has made his last peace offer, according to official cables received here today. He believes the war must go on at least two or three years more—until the full effect of America's vast powers have been felt and either a victory or a hopeless deadlock in the great struggle reached.

The Vatican realizes, according to the officials, that peace or further negotiations at present is impossible. President Wilson's rejection of the Pope's last offer has convinced the Vatican that the Allies want no peace which will leave the Central Powers under the present rulers. The Pope realizes that the Allies, with America's vast resources now thrown into the balance, have the upper hand and can wring from the Central Powers a peace acceptable to the democracies. Any further effort from the Pope would be foredoomed to failure it is admitted.

Official cables today state that Vatican circles throw out the suggestion of an understanding at least between England and Italy that no peace proposal coming from the Vatican shall be satisfactorily considered and that when peace negotiations begin the church is not to be admitted into the conference. These hints go so far as to say that Italy's entrance into the war hinged upon the acceptance of this condition two years ago.

SEWER CONTRACT IS FINALLY AWARDED

(Continued from Page 1) fire committee may find a market for the animal without receiving bids.

The attention of the council was called to a resident in East Ninth street, who is wanting water service. There are no mains in the street near where he lives and it would cost the city about \$400 to supply one man with water. The water committee will investigate.

BURNED CANNING FRUIT

Mrs. Aylett Wimmer of West Fifth street is suffering from severe burns on her left forearm and hand caused by hot paraffin. Mrs. Wimmer was engaged in putting up floral offerings. The burns are quite severe but probably will not cause permanent injury.

ACCOUNT SUIT IS HEARD BY A JURY

Case of Milking Machine is Involved in Case of Wagner Against Sider and Son

SPECIAL JUDGE TOMORROW

The case of Gurtzia Wagner against George R. Sider and Niles Sider doing business under the firm name of George R. Sider and Fourth Indiana, whose names were not published in the list last week, was heard by a jury in circuit court still urged to report them to the today. The case was sent here on committee appointed by the County a change of venue from from Han-Council of Defense to keep a permanent record of Rush county's war county and the case involved the record. The committee wants the sale of a milking machine to the name of the company, regiment, defendants who are engaged in the branch of service, date and place of dairy business.

The case went to the jury late location, date and place of birth this afternoon. Not much difficulty was experienced in getting a jury as very few of the men called had ever heard of the case.

The case of Michael Madden against the City of Rushville will be heard tomorrow by Myron C. Jenkins of Greensburg, who will act as special judge. The suit is on a claim for labor alleged to have been performed for the city under the former administration.

TURN NOW TO FIXING FORM OF GOVERNMENT

Russian Provisional Government Directs Energies Towards Constitutional Assembly

TO FIX ELECTION MACHINERY

(By United Press.) Petrograd, Sept. 19.—The cabinet crisis settled, the Korniloff revolution quelled, and plans for reorganizing the army under way, the provisional government today turned its energies towards preparing for the constitutional assembly which will fix Russia's form of government.

Active steps were begun throughout the nation to establish boards and the complicated machinery by which delegates will be selected for the constitutional conference on December 11. Premier Kerensky from the army front, where he is aiding in the quelling of the Korniloff revolution and in planning the reorganization of the whole army, issued a proclamation expressing the government's thanks to the committee on public safety formed at the time of the Korniloff rebellion. He asks that they now dissolve, their function having ceased to be a necessity.

WILL NOT ACT ON THE APPEALS NOW

(Continued from Page 1) this reason it is likely the district board will reopen the case.

Mr. Gary stated this morning that the claim of the first man drawn in this county, Vern Lower of near Homer, had not been taken up by the district board and it is not known why the board took up the Smelser case first when he is farther down the list than Lower. Hereafter the men going to the Louisville camp will be selected in the order drawn as this can be done as soon as the district board acts on the claims. It has always been maintained by the local board that if the first man drawn was not given an exemption he should be the first man to go and this will likely apply in making up the third increment of forty per cent which will leave on Oct. 5.

The men leaving for Louisville on Friday will report at the clerk's office tomorrow afternoon at two o'clock. The men will be instructed and a leader appointed. The men will leave over the Pennsylvania at 7:10 a.m.

CARD OF THANKS

We desire to thank our neighbors and friends for the kindness and sympathy extended to us during the illness and death of our darling son and brother. Also for the beautiful floral offerings.

MR. AND MRS. THOMAS JOYCE and FAMILY.

**As Powerful as 5 Horses
Does as Much Work as 7 Horses
Costs Less than 4 Horses
Requires Less Care than 1 Horse
Less Room than 1 Horse
Eats Only When it Works**

The Ideal Tractor

No other tractor on the market will do such a great variety of work, nor is it correct in design and construction as the Moline-Universal. It takes the horseless farm possible. It pulls the 5-ton load—will do as much work as 7 horses, owing to its greater speed and endurance. It can be used for plowing, harrowing, planting, cultivating, haying and harvesting—in fact, all field work, and will deliver 12 horse-power on the belt.

A Real One-Man Outfit

The Moline-Universal is easier to handle than a team of horses, weighs about the same, turns in a 16-foot circle and will back with the implement attached. It is compact, simple, close-coupled, a wonderful puller and carries no dead weight and best of all, it is operated from the seat of the implement attached. This permits one man to operate both tractor and implement.

For further information see

WALTER G. DUKE

Cut the Cost of Horse Labor

The cost of horse labor is almost one-half the gross operating expense on the average farm. A farm horse averages only 3½ hours work a day through the entire year, and tires in six. It costs from 12 to 14 cents per working hour to maintain a horse, and requires 23 minutes a day to care for him, or fourteen ten-hour days a year.

And yet there isn't enough power to plow more frequently, so that organic matter will be utilized, moisture conserved, and a good state of soil till maintained; to cultivate more frequently; and to harvest at the proper time.

Let us tell you how the Moline-Universal Tractor can reduce the cost of power on your farm. It will pay you.

DEAF MUTES MEET

Bristol, Ind., Sept. 19.—The tenth annual conference of deaf mutes of Northern Indiana was held here today. Lectures were delivered by prominent workers of the state.

Opening dance at Glenwood, Thursday night, Sept. 20th.

WANT ADS BRING RESULTS

WILL NOT ACT ON THE APPEALS NOW

District Board Will Not Take up Cases From This County For 2 or 3 Weeks

A. L. GARY RETURNS TO CITY

One Exemption Granted in This County on Industrial Claim Will Likely be Reopened

A. L. Gary, local appeal agent, returned last evening from Fort Wayne without having obtained a decision on the cases from here pending before the district board. The best the district board could do was to certify the names of those men having no claims for exemption. The board is rushed with work and it will be necessary for Mr. Gary to appear before the board again within the next two weeks when the appeals and claims will be taken up.

It will be absolutely necessary for the district board to act on the Rush county cases before October 5, when the second forty per cent of the men from here leave for the cantonment at Louisville as no guess work can be done in making up that forty per cent increment.

Mr. Gary would like to have remained in Fort Wayne and finished with the Rush county cases but the district board was not ready for him and it was only after hard work that he got the names of the sixty-one men who filed no claims certified back to the local board for service.

A total of twenty-four men will make the trip to Louisville from here Friday. The original list called for twenty-six but as two of the men in this increment are in the training camp the county will receive credit for them and thus will send only twenty-four men.

The only claim acted on by the district board thus far is that of Glen Smelser of Falmouth, who was given an exemption on agricultural grounds. It was reported today that his case may be reopened by the district board because of the precedent established. Smelser is a single man, living with his parents. His father and he farms 130 acres of land and if the board adopts the policy of exempting all single men working on farms it will be a difficult task to secure the county's quota, it is said. If Smelser's exemption goes through, it is believed the precedent established will work a hardship here and for

GOVERNOR'S FEVER LOWER

Is More Than Holding His Own in Fight Against Typhoid Fever

(By United Press.)

Indianapolis, Ind., Sept. 19.—Governor James P. Goodrich has more than held his own during the past twenty-four hours, according to a statement issued today. The governor's fever is going down. This is leaving him in a very weakened condition. During the night he suffered another hemorrhage but it was beneficial, according to the announcement, as it took the poison out of his system. His general condition was characterized as "satisfactory."

PROBABLY SINKS GERMAN SUBMARINE

American Armed Steamer Thought to Have Sent Down U-Boat Near Shetland Islands

BRITISH SINK ONE ANYWAY

(By United Press.)

London, Sept. 19.—An American armed steamer probably sank a German submarine in a fight southeast of the Shetland Islands, according to a dispatch from Bergen today.

The American steamer encountered a submarine engaged in sinking another vessel. The American ship opened fire and smashed the periscope of the U-boat. Another submarine appeared and fired two torpedoes at the American vessel. Both missed. British destroyers attracted by wireless calls responded, sinking the second submarine.

Six of the German crew were rescued.

WILL SETTLE SHIP STRIKE

Both Sides of Controversy in San Francisco Expect Agreement

(By United Press.)

San Francisco, Cal., Sept. 19.—Hope that a settlement of the strike which has tied up ship building in San Francisco would be reached before many days was expressed by representatives of both sides of the controversy when they went into session again with government representatives today. No announcement was made as to the progress made in the conference, but it was evident that both sides believe solution had been brought nearer.

WOULD WELCOME A CHANGE TO ARTILLERY

Sanitary Detachment Would Be Affected Whether Part or Whole Regiment Is Transferred

RUMOR REGARDED AS "SNOW"

(Special to the Daily Republican.)

Fort Benjamin Harrison, Ind., Sept. 19.—The members of the sanitary detachment of the Fourth Indiana Infantry would welcome a change to the artillery service, but the story that the transfer will be made is regarded as "snow" here—may melt before morning. Adjutant General Smith told officers he heard nothing of the rumor while at Hattiesburg recently.

The men say they prefer the artillery service. It would mean a complete change in drill and a mount for every man. If two battalions from the Fourth or the whole regiment is changed to the artillery it would affect the sanitary detachment.

No orders have been received to move to Hattiesburg, but the rumor is still current that the Fourth may be called at any time.

DEMANDS \$4,000 AND ACCOUNTING

Mrs. Winifred Joyce Alleges W. B. Joyce Has Rented Her Property For 17 Years

NEVER MADE AN ACCOUNTING

Alleging that he has attended to the renting of her property for seventeen years without making an accounting, Mrs. Winifred Joyce, widow of the late Austin Joyce, has filed suit against William B. Joyce, demanding an accounting and \$4,000.

Mrs. Joyce charges that for seventeen years he has collected rents, paid the taxes and made repairs on her property without giving her an accounting. The complaint also stated that he took \$500 of her money from the bank and bought property and that the property is in his name.

The plaintiff states she is feeble and not capable of looking after the property and she relied upon the defendant. The complaint set out that the annual rental from the property named in the complaint is \$200 and she has had no accounting covering a period of almost seventeen years. Chauncey Duncan represents the plaintiff.

FORECASTS CALL FOR 500,000 MEN

Secretary Baker Indicates More Conscripts Will be Summoned by Appeal For Money

ASKS \$287,416,000 FOR ARMY

(By United Press.)

Washington, Sept. 19.—Secretary of War Baker today submitted to the senate appropriations committee \$287,416,000 additional estimates for the army. He explained the imperative need of the money and asked that it be included in the urgent deficiency appropriation bill.

Baker in submitting the estimate forecasted a call for 500,000 more conscripts soon. He said:

"Submission of these estimates is necessary to provide facilities for the manufacture and storage of equipment for an additional half million men, in anticipation of a call for this number and in securing a supply of ammunition."

Continued on Page 8

HEATING PLANT BIDS EXCEED THE ESTIMATE

County Council to Make Additional Appropriation and Commissioners Will Readvertise

OCTOBER 20 IS THE DATE SET

The county commissioners failed to let the contract yesterday for the new heating plants to be installed at the jail and court house because the bids exceeded the estimate. Bids were readvertised for Oct. 20 and at the same time the county council will meet to make an added appropriation to cover a revised estimate.

The state board of accounts ruled that the old heating plant could not be sold for junk to the man receiving the contract and thus permitting the bidders to take the old plant into consideration when making a bid. The state board held that the old plant would have to be sold for junk separately and because of this the bids received yesterday were higher than had been expected.

By taking in the old heating plant in the contract a better price would be received than if it was sold for junk, but the state board ruled this was illegal.

WOMAN 70 YEARS OLD EXHIBITS RARE PLUCK

Mrs. Freelove Peters Rides 80 Miles in Automobile After Breaking Her Left Arm

WOULDN'T DISAPPOINT FAMILY

Mrs. Freelove Peters, who will be seventy years old this month, exhibited pluck that would be commendable for one half her age, when she fell and broke her arm, but rather than disappoint relatives with whom she was going to a family reunion, rode eighty miles in an automobile before having the broken bones set, and then attended the reunion.

Mrs. Peters is now visiting at Tipton, where she went with her son, J. W. Peters and family, and daughter, Mrs. Will Meyers and family, Sunday to attend the Gifford reunion.

Mrs. Peters was climbing into the automobile at her son's home east of the city when she fell and broke both bones in her left arm. She would not consent to calling a physician after the accident and delayed the trip to Tipton, and she rode all the way suffering pain from the broken bones. After reaching Tipton and the bones were set, Mrs. Peters went to the reunion and enjoyed it immensely.

ALMOST 2 AND HALF MILLION IN 5 BANKS

Money on Deposit, as Revealed by Statements Today, Reflects Prosperity of Community

PROBABLY MOST IN HISTORY

With almost two and a half million dollars on deposit, the five financial institutions of this city, three national banks and two trust companies probably have on deposit more money at this time than at any time in their history. According to the statements of the banks, published today on page 5, the total deposits of the five Rushville institutions amount to \$2,418,186.10. This huge sum of money represents only that on deposit in the banks of this city.

In addition to the deposits the banks have total resources and liabilities amounting to \$3,783,103.95. These figures are based on conditions at the close of business Sept. 11. The deposits here indicate the prosperity of the city and county.

FOR OFFICERS DEPENDENTS

Senator Watson Introduces Bill Providing Government Support

Washington, Sept. 19.—Senator Watson of Indiana has introduced a bill which requires the War Department to provide quarters or commutation in lieu thereof to officers of the army who have dependents. There has been much complaint in the army because officers with dependents are forced to pay for accommodations for their families. This is regarded as a hardship and a good many members of Congress are lined up to support the Watson bill.

DOLLAR PLAN IS SAID TO FIND MOST FAVOR

Method For Raising Money Library War Fund Week is Discussed at Richmond Meeting

MISS MARY SLEETH ATTENDS

Ways and means of raising their respective apportionments during library war fund week next week were discussed at a meeting of librarians and members of library boards at Richmond yesterday afternoon. Miss Mary Sleeth, local librarian, attended. Of the \$125,000 apportioned to Indiana, Rush county is asked to contribute \$24.50.

The plan of raising this amount which found most favor at the meeting yesterday was the "dollar plan." It is likely that an effort will be made to raise the amount with dollar subscriptions; but none will be prohibited from giving any sum over or under one dollar.

The million dollars to be raised in the United States will be used to provide reading materials for soldiers at cantonments, mobilization camps and hospitals.

COMMERCE FACES A TIE-UP

3,500 Men Employed on New York Docks Go Out on a Strike

(By United Press.)

New York, Sept. 19.—With 3,500 men employed on docks of the International Mercantile marine already striking New York commerce today faced a threatened tie up.

Fifty thousand men, according to officers of the longshore men's union are ready to walk out in sympathy with the men who are protesting against employing of strike breakers. There were hints today that

SEWER CONTRACT FINALLY AWARDED

Goes to J. D. Case For \$872 After Two Futile Attempts Are Made to Get Bidders

BENEFIT MODERN APPLIANCE

Treasurer's Report Shows \$25,064.48 on Hands the Last Day of August

After two unsuccessful attempts to let the sewer contract for West Second and North Oliver streets, the city council last night awarded the contract to J. D. Case for \$872. The estimate was raised after the two futile efforts to get bidders and the bid of Mr. Case came in under the new estimate. The sewer is primarily for the benefit of the Modern Appliance company and will be built as an expansion of the city sewer system. The contractor's bond was fixed at \$500 and the work is to be completed by December 15.

There was nothing of special importance before the council and only the routine business was transacted.

The water committee reported that it costs the city seven cents a thousand gallons to pump river water. The estimate was made to determine the advisability of entering into a contract for supplying the Big Four railroad with river water for its engines. At present the Big Four is using city water at the regular rates and the railroad believes this is costing too much money. The city was asked to figure on supplying river water. No other action was taken after the committee announced that the cost of pumping river water was seven cents a thousand gallons.

The city treasurer's report for the month of August was reported correct by the finance committee. The report showed that the city had a balance on hands at the close of business the last day of August of \$25,064.48.

A representative of an adding machine company appeared before the council with a proposition for a new machine for \$200 and in return would take in the old machine now in use there for \$40, making the new machine cost the city \$160. He will place a machine in the office for a trial. The machine now used by the city has about outlived its usefulness. It was purchased by the Black administration second hand and has been in service ever since.

No bids were received on the fire horse offered for sale and the

Must Lose For Holding Paper 2 Years, Decision

John Parsons, Finding O. S. White Who Issued It Has Left State, Brings Suit Against First Indorsee.

SECOND MAN TO INDORSE IT IS IN ARMY

Can a person recover on a check nearly two years old, which was indorsed by three persons, by bringing suit against the only remaining indorsee in the county? Squire Samuel L. Newhouse yesterday held that it can't be done and found for the defendant.

On Oct. 23, 1915 Oliver S. White, an insurance agent here, gave a check for \$27.80 to Goldie Carr, a garage man at Milroy. Carr indorsed the check to James Sage, former postmaster at Milroy. Sage in turn indorsed the paper to John Parsons. All of this changing of hands for the check occupied a period of almost two years. Parsons attempted to cash the check but could get

MUST CONSERVE THE COAL

Chairman State Public Service Commission Warns Consumers

(By United Press.)

Indianapolis, Ind., Sept. 19.—Coal consumers were warned that they must conserve the fuel supply by E. I. Lewis, chairman of the public service commission in a statement today.

"Winter will bring to this country the first realization that we are involved in war and the weakest point in our armor is our fuel supply," Lewis said. He stated that a fuel dictator would be appointed for Indiana by the federal government within ten days. He predicted great suffering would be experienced on account of the scarcity of coal.

TO LICENSE SUGAR MEN

Washington, Sept. 19.—The importation, manufacture and refining of sugar, sugar sirups and molasses will be licensed beginning Oct. 1, 1917, under executive order of the president. All persons, firms, corporations and associations engaged in manufacture or importation of sugar must secure a license before Oct. 1, the order said. Licenses will be obtained from the food administrator.

AMERICAN SHIP SUNK

(By United Press.)

PROPOSES TO EXPEL SENATOR LAFOLLETTE

Resolution Introduced at Chamber of Commerce Convention Favors Petition to Congress

WISCONSIN MAN BACK OF IT

(By United Press.)

Atlantic City, N. J., Sept. 19.—A resolution proposing that the United States Chamber of Commerce petition congress to expel Senator LaFollette for unpatriotism and disloyalty was introduced today at the chamber of commerce war convention here. This was proposed by A. E. Winter of Green Bay, Wisconsin, LaFollette's home state. He declared the Green Bay chamber reflected disloyalty on the state.

Pleading with American businessmen to favor the use of foreign tonnage in American coastwise trade, Raymond B. Stevens of the United States shipping board today warned them that within six to eight months all American coastwise shipping will be seized for overseas duty.

A. C. Bedford, president of the Standard Oil company told the convention of American Business Men that the nation is using 18,000,000 more barrels of oil each year than it is producing but that reserve stocks will give the nation a sufficient supply for five years. He insisted that the automobile owners must practice economy in the use of gasoline.

SEES ADMISSION OF FAILURE OF A PLOT

England Believes Germany Hopes For Peace Before Russian Army is Reorganized

EDITORIALS ARE INSPIRED

(By United Press.)

London, Sept. 19.—England sees in the German peace feelers, admission of a Russian plot that failed. Germany now hopes to make peace stick before the Russian army reorganized by American aid can get into action. The German peace discussion is raging unhampered by censorship in the German press. No doubt was expressed here that the greater part of the editorials are inspired.

As observers here read the signs today, Germany now sees herself balked in Russia. Where Germany hoped to frighten Russia into a separate peace, the Teutonic leaders probably now see they have stung the new democracy into action.

ENTRANCE EXAMS HELD

Lafayette, Ind., Sept. 19.—Entrance examinations were held at Purdue university today although classes will not start until Sept. 26. Opening of the university was delayed until next Wednesday in order to give the farmer students more time for work at home. Arrangements have been made to admit students as late as Oct. 10 if they submit evidence from their employers showing the necessity for the delay.

COAL DEALERS MEET

KERENSKY VIRTUALLY
PRISONER IN PALACEArmed Mobs, Delirious With Power,
Roamed The Streets of Petro-
grad Last Week

FIRST STORY OF LAST REVOLT

By WILLIAM G. SHEPHERD
(U. P. Staff Correspondent)
(Copyright U. P. 1917)

Stockholm, Sept. 19.—At the moment when Korniloff's revolt was at its height Russia's "peace at any price" fanatics were in the saddle in Petrograd, Premier Kerensky was virtually a prisoner in the palace and armed mobs, delirious with power, roamed the streets.

This story of wild excesses, of growing power of the extreme radicals and of Russia's perilous situation of the past week can now be told for the first time from this neutral port. The censor prevented it at Petrograd.

When rebellion menaced Petrograd Premier Kerensky, searching for defenders released and armed the Kronstadt sailors and workmen who last July terrified the city. He hoped to send these men against the rebels.

They instantly assumed control of the city's streets. Great motor trucks loaded with the terrorists of July roamed about the city unhampered. They assumed control of the workmen and soldiers congress at Petrograd. They sought to impose a resolution for instant peace on what remained of Russia's governmental machinery. They demanded Kerensky's removal immediately. The president of the council alone prevented such action.

FAVORS EXAMINATION OF
ALL REGISTRANTS AT ONCE
(By United Press.)

Indianapolis, Ind., Sept. 19.—Jesse Eschbach, state conscription agent, has recommended that the exemption boards be allowed to continue with their work of examining registered men until every man is examined. The recommendation was made in reply to a request from the war department to Governor Goodrich asking if the plan of continuing the examinations was favored in Indiana.

—Mr. and Mrs. Willard Amos and daughter Miss Mary and Mrs. Frazier Johnson returned last evening from a motor trip to Warsaw, where they were the guests of Mr. and Mrs. Lee Thomas.

—Mr. and Mrs. Paul Allen have returned from a two weeks visit in Momence, Ill. Previous to that time they were at Danville, Ind. where Mr. Allen and E. R. Casady own a general store. Mr. Allen will remain here.

—DAYS PICKINGS

The funeral services of William Combs will be conducted Thursday afternoon at 2:30 o'clock in the Glenwood Methodist church in charge of the Odd Fellows lodge. Burial will take place in the Glenwood cemetery.

Mrs. John Mabra entertained about twenty guests last evening at her home in East Eighth street, honoring Mr. Mabra's fifty-sixth birthday. After the pleasant evening, delectable refreshments were served.

A baby girl weighing six and a half pounds was born to the wife of Edward Frazee, formerly Miss Rita Readle of this city, at their home in Orange last night. The baby has been named Jean.

The Odd Fellows will meet tonight at 7:30 o'clock to make arrangements for attending the funeral of William Combs tomorrow in Glenwood.

Mr. and Mrs. Walter Niles are moving from North Harrison street, to 835 North Jackson street.

Mr. and Mrs. Raseley have moved from 430 North Harrison street to 606 North Jackson street.

—AMUSEMENTS

The Gem offers the feature drama "Environment," for the program tonight. Mary Miles Minter is featured and it is said to tell a fine story. Tomorrow the William Fox production, "Loves Law," will be shown in which Joan Sawyer is featured.

"Vanity," is the title of the feature drama at the Princess tonight. Emmy Wehlen is featured and it tells the story of a girl who resorts to gambling in an effort to buy beautiful gowns. In addition, "Pathé News," will be shown. Tomorrow Edith Story and Antonio Moreno will be seen in the feature, "The Captain of the Grey Horse Troop."

117-121 S. Main St.

Rushville, Indiana.

LET THESE COLUMNS BE YOUR GUIDE

FIGHT FOR YOUR LIFE

Duty Demands Robust Health

Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by ill and all. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a prey to ill after all.

You will not find this class of persons in the hypoferin ranks. No unhealthy, dull, draggy, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferin stands for sound body and sound mind—it is the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferin or to stay the process of decay and restore health and strength—you win. This tonic of amazing wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferin contains those mighty strength-producing agents, lecithin-and-iron peptone, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the blood. In nine cases out of ten a run-down condition, below par, is due to the "all-in" feeling and frail bodies are due to lack of lecithin-and-iron peptone in the system.

Your mental and physical strength and endurance depends upon a lecithin-and-iron peptone laden blood; steady, dependable nerves and a healthy stomach. With these you can meet life at any angle. This wonder tonic, hypoferin, which is as perfect as science can get to, meets every essential demand of the human organism. It is safe and sure and a boon to run-down, worn-out men and women. Hypoferin means natural health, the return of vigor to the cheeks, strength to the body and keeping the vigor and buoyancy of youth. The power and paint way of effecting beauty is not needed by hypoferin women and girls. Their blood, filled with nature's beauty, stores, creates conditions that give firmness and grace to the body and the glow of health in the cheeks.

No need of going through life sickly and always feeling miserable in this age of medical science. Join the hypoferin ranks. It puts into you the springy snap and vigor you ought to have and puts life into your body and mind that inspires the confidence in you confidence.

Hypoferin may be had at your druggist's or direct from us for \$1.00 per package. It is well worth the price. The Bonton Remedies Co., Cincinnati, Ohio.

CHIROPRACTIC

The ONLY science ever discovered for eradication of disease by going directly to the cause.

If your case is chronic and have tried everything else without satisfactory results, why not investigate?

CHIROPRACTIC

the science of common sense applied to the human machine—not medicine, not surgery, not osteopathy.

Modern Wandering Jew

The People's Council is the modern Wandering Jew. Tabooed in North Dakota, stiffered in Minnesota and barred from Wisconsin, the organization has nothing to do but move on, the same command which sent the classic restless one through the ages.

Now Scott Nearing, the irresponsible college professor whose home was raided at Toledo, Ohio, the other day and papers seized to determine his anti-war activities, has assumed charge of the Peoples Council work in New York. In this connection, the Muncie Press says of Prof. Nearing's activities:

The papers of Prof. Scott Nearing, of Toledo, have been seized by the federal authorities because of alleged seditious activities of the Professor. Nearing is one of the contributing editors of the Indiana Forum and other Indiana administration organs which have recently been lambasting Senator James E. Watson on the basis of the printed misrepresentations of his Roanoke, Va., speech, on the ground that Senator Watson has been guilty of sedition. If the Forum can't keep its own editorial staff out of the hands of the federal authorities because of their seditious writings, how can it expect to successfully regulate the utterances of Senator Watson?

Save Own Vegetable Seed

Home gardeners as well as truck growers who find seed of favored varieties difficult to secure or high in price would do well to save their own seed, according to the United States Department of Agriculture. The saving of seed from beans, peas, corn, peppers, okra, egg plant, squash, cucumbers, muskmelons and watermelons is very simple, the chief requirement being to select seed from good plants. Obtaining seed from tomato, radish, lettuce, kale, collards, cabbage, kohlrabi, beets, carrots and mustard, while not so simple, is not beyond the ability of any amateur gardener.

A newly published Farmers' Bulletin, "Saving Vegetable Seeds for the Home and Market Garden," (No. 884) which will be supplied free by the United States Department of Agriculture, explains in detail how to gather and cure seeds commonly needed by truck growers.

Growth of U. S. Trade

Exports from the United States to the neutral world have doubled since the beginning of the war, and to the belligerent world have tripled. A compilation by The National City Bank of New York shows that exports to the neutral sections of the world other than those of Europe were, in the fiscal year 1917, \$1,838,000,000 against \$877,000,000 in the fiscal year 1914. To neutral Europe the total for 1917 was \$414,000,000 against \$184,000,000 in 1914. This makes the total exports to the entire neutral world, European and non-European, in 1917, \$2,232,000,000 against \$1,061,000,000 in 1914, and to belligerent Europe in 1917, \$1,042,000,000 against \$1,304,000,000 in 1914. The increase in exports to the non-European world is 110%, to the entire neutral world 112% and to the

belligerent countries of Europe 210%.

If you love your neighbor as yourself, you will not have to lie about him after he is dead.

Crowned heads are a nuisance in Europe, but they often come in handy in a close card game.

WILL SOON CHANGE BLUE HAT CORDS FOR SCARLET

Continued From Page 1

One who visited Company B when it was encamped at the Rush County fair ground would scarcely recognize the outfit now. Due largely to the untiring efforts of Captain Kiplinger and Lieutenants Blackbridge and Kreber, coupled with the eagerness of the men to learn, the organization has taken on a very military aspect that is enhanced by the resplendence of brand new uniforms for every man, and guns.

Guns! To the soldier there seems to be magic in the very name. The men of Company B are no exception. When the new Springfields were issued the company kept the officers on the alert to prevent the men drilling with them after dark, so anxious were they to master the manual of arms. During the past week the company has had several hours of drill in the manual each day and the majority of the men are beginning to handle their rifles like veterans. There are a few, however, who persist in ducking their heads when bringing the piece up to right shoulder arms.

The company has been here just four weeks but the men are rapidly becoming acclimated. This is evidenced by the rapid disappearance of the few cases of homesickness among several of the boys and the growing tendency to sing on every possible occasion. The company discovered it had a composer or two in its midst and soon after reaching Camp Shelby these bards sharpened their pencils and soon had several catchy parodies written which were set to popular airs of the day. The company seemed to take to singing like a duck to water and now every hike is enlivened by swinging march melodies booming from the lusty lungs of a hundred and fifty dustbrowned Noosiers.

After the day's drill and the evening mess is over the favorite occupation of the boys is to gather around a camp fire near the company street and sing. Parodies are sung on everyone from the Captain to the kaiser. One of the favorites is one dedicated to Pat Devaney, sung to the tune, "Ireland must be Heaven." Pat is one of the cooks and a universal favorite with his ever-ready wit and County Cork smile. The other evening while about 50 of the company led by big Bill

Peters of Connersville was singing this ditty, General Lewis happened to chance by in his car. He ordered his chauffeur to stop, listened until the song was finished and then had the boys sing it over again for him, apparently greatly pleased.

Now that the men expect soon to be in the artillery they are singing a ditty set to the tune "When Johnny Comes Marching Home" which runs something like this:

We are the boys of Battery B
Of the Field Artillery;
We left our homes in old Rushville
To go across the sea,
We used to walk, but now we ride
And carry a pistol by our side—
Good-bye Doughboys, we're off for
Germany.

The most welcome tune the boys have heard since their arrival was blown by Bugler Theobald just before reveille on the morning of September 13. This was pay day call. The men were paid off that afternoon. The only gloomy face in camp was that of Sergeant McCoy. He declared that he "sure would be out of luck" being paid off on the thirteenth. His pay this month amounted to \$39.13, just three times 13 and 13. The combination was too much for him.

Ten new non-commissioned officers have been warranted and ten privates promoted to first class privates in the company. Thomas V. Price of Greensburg, has been made supply sergeant. Telles LaLonde and Letcher A. Pope have been promoted to the grade of sergeant, George Myers, Carl Peters, Charley Pea, Hartford Salee, Paul C. Koons, Jess Taylor and Cleo Emsweller have been raised to the grade of corporal.

The following men have been created first class privates with an increase of three dollars a month in their pay: Charles Cortelyou, Elmer Hendricks, John Colter, John Wilkinson, Glen Grose, Chester A. Meal, James L. Scott, Gordon Vanatta, Ira Fultz and Frank Nicholson.

WILL HAYS SPEAKS

(By United Press.)

Lafayette, Ind., Sept. 19.—Will H. Hays, chairman of the state council of defense, was the main speaker on the program of today's sessions of the annual convention of the Indiana Farmer's congress. J. H. Biddle, of Remington, president of the state association presided at the meeting. G. I. Christie, state food director will speak tomorrow on the good results obtained from the campaign for increased food production in the state this year.

Right Now Is a Good Time

to acquaint yourself with this store's magnificent stocks of new merchandise and learn what beautiful styles and excellent values and what painstaking service awaits you here.

We urge you to come and see the new dress goods, silks, gingham, percales, coats, suits, furs, sweaters, whether you come to buy or not.

We urge you to compare the values we offer with what you can get elsewhere. It's to your own best interests to do so.

We urge you to investigate the many exclusive advantages in style, quality, service and price offered you at this store.

We urge you to find out for yourself, by test, of the goods we sell, that nowhere can you get more real value for your money than here. We will not let a customer be dissatisfied with anything bought here, if we know it.

PROPAGANDA ON TO RETARD CONSERVATION

Is Being Carried on in Sixth District, Judging From Reports

Rep. Elliott Receives

BELIEVED ANTI-WAR SCHEME

Washington, Sept. 19.—Judging from reports which have reached the office of Rep. R. N. Elliott from various parts of the Sixth Indiana district, a propaganda to retard food conservation has been in general progress. Rep. Elliott, who was active in promoting food conservation throughout the district, he represents by distributing hundreds of government bulletins on home canning and drying of fruits and vegetables, has carefully investigated these reports of contemplated food confiscations and has found them to be without any foundation of fact, as evidenced by a statement just promulgated by the department of agriculture.

At first it was believed the report of food seizures was the work of "confidence" men. So general has the circulation of this report become, however, that it is now believed it is a part of the anti-war propaganda with the purpose of causing an insufficient food supply for the American people throughout the winter months.

Announcement has been received here of the wedding of Miss Beulah World of Salt Lake City, Utah and George Skipton of Pittsburg, Penn., son of Mr. and Mrs. G. W. Skipton of this city, which took place last Thursday evening at the home of the bride, the Rev. P. A. Simpkin officiating. After the ceremony a formal reception was given. Mr. and Mrs. Skipton arrived here today for a visit with Mr. and Mrs. G. W. Skipton before going to Pittsburg where they will make their home.

* * *

About eleven members of the O. N. T. club were entertained by Mrs. R. H. Jones yesterday afternoon at her home in North Perkins street. Knitting and fancy work made a delightful pastime for the guests and the hostess served a well appointed course luncheon. Mrs. George Osborne will entertain the club in two weeks.

* * *

Mrs. Richard Beale, assisted by Miss Minnie Beale and Miss Laura Meredith, entertained the members of the Woman's Missionary society of the First Presbyterian church, yesterday afternoon at her home in North Harrison street. A program was carried out as follows: Devotional, Mrs. Holmes. Latin America, Chapter 5, Mrs. Carr.

Mrs. John Boyd, the leader, and several of the members gave current topics on the "Home Missionary Work in Clinton and Gary, Ind." these cities being so thickly populated with immigrants. The next meeting will be with Mrs. Pierson, October 16.

* * *

Twelve members of the 1917 Embroidery club and three guests, Mrs. Frank Hayes of Indianapolis, Mrs. Lon Innis and Mrs. C. H. Houghland were entertained by Mrs. Charles Stewart, yesterday afternoon at her home in Milroy. The ladies were entertained with sewing and fancy work, and the hostess served a two course luncheon.

* * *

Mrs. Chauncey Duncan was the charming hostess to about eighteen members of the S. E. T. Embroidery club, yesterday afternoon at her home in North Perkins street. The guests whiled the pleasant hours away over knitting and needlework. Splendid refreshments were served by the hostess. Mrs. George Helm will entertain the club in two weeks.

* * *

Honoring the birthday of Elvin Cook, a number of his friends and neighbors spent last evening with him at his pretty country home west of this city. The affair was in the form of a surprise pitch-in supper. A chosen color scheme of red, white and blue was used in the living room and the same colors were used on the table. Games and dancing featured the evening and the guests included: Mr. and Mrs. Fred Lockridge, Mr. and Mrs. William Brown, Mr. and Mrs. Carey Cross and son Russell, Mr. and Mrs. William Lockridge, Mr. and Mrs. Harry Kennedy, Mr. and Mrs. Will Case and sons Deryl and Robert, Mr. and Mrs. Jesse McDaniel, Mr. and Mrs. Clarence Lovett and daughter Mar-

Miss Mary Lee of Los Angeles, Cal., who has been the house guest of Mr. and Mrs. Donald Alexander for the past few days, has gone to Indianapolis for a visit before returning home. Hubert Alexander gave an informal evening party Saturday evening at his home northwest of this city in her honor.

* * *

The Woman's Missionary Society of the St. Paul's M. E. church will meet with Mrs. D. D. VanOsdol tomorrow afternoon at 2:30 at her home 212 West Third street.

* * *

The Epworth League of the St. Paul's M. E. church will hold a military social Friday evening at the church. Everyone interested is urged to attend.

MUST FIND USE FOR MANY PRODUCTS

High Prices Make It Necessary to Study Possibilities of Utilizing Home Grown Products

BARNARD RECOMMENDS CORN

Many Appetizing Dishes Can Be Made And It Is Wholesome As Well

(By United Press.)

Indianapolis, Ind., Sept. 19.—Necessity for making use of products which have not been generally recognized as human food in the past was emphasized by Dr. H. E. Barnard, pure food and drug commissioner for Indiana, today. He said:

"When the wheat crop of this country and of the world is almost certain to be scanty, when the demands for food even in this land of plenty is so great that high prices rule the market, it is time for study of the possibilities for using our home grown products here-to-fore unutilized. A man of experience recently remarked that he had planted a large part of his garden with field corn and had intended to buy a coffee mill with which to grind it in order that he might feel secure against famine and prohibitive prices. His hearers smiled because he is well-to-do and used to comfortable living, but there was something more than jocose extravagance in what he said. He had traveled widely and observed with interest the grains men used for their staple food. With the possible exception of wheat and rice he had nowhere found so palatable and nutritious a grain as Indian corn. Even at present prices a sufficient amount of corn for use on the family table once or twice every day can be had for a moderate sum. Ground coarse in a cheap hand mill or even in a coffee mill it is the hominy or samp of New England ancestors. When it is sifted the finer meal which it supplies can be used for corn bread, hasty pudding or the cornpone and spoon bread of the South, the coarser hominy after being covered with water so that the hulls of the grain may rise and be skimmed off should be cooked until each particle is thoroughly done. This product can then be eaten with milk or fried and served with syrup.

"Besides camp and Indiana meal there is the hulled corn of New England or "big hominy" of the south. To make it the corn is first boiled with an alkali. Wood ashes were once used but baking soda will do as well, and washed in five or six waters. In the process the alkali is removed, the hulls come away, the grains swell and provide a capital dish when properly salted and eaten with milk or served with the meat course.

"Children almost always like dishes made from corn and the man whose appetite has not been too greatly satisfied realizes what Emerson meant in saying "wholesome as maize."

"The sweet corn which is growing in our gardens beyond our present needs should be picked while still green and the kernels cut off and dried over a slow fire. The corn may be allowed to ripen on the stalks and then shelled in mid-winter it may be ground in a hand mill and used in many helpful ways.

"This is a good year in which to get acquainted with corn, the most valuable of all our crops. The acreage our patriotic farmers planted last spring is by far the largest in our history. We should use it instead of wheat flour in every possible way."

BAPTISTS IN SESSION

(By United Press.)

Bluffton, Sept. 19.—The seventy-seventh annual session of the Salmonie Baptist association was opened here this morning. The sessions will continue today and tomorrow.

Smart Designs, Fashionable Colors, Fine All Wool Fabrics Represented in This Showing

Wooltex Suits for Style and Distinction

To the many women who look to us for the assured styles of each season, we announce a notable showing of Wooltex suits, just out of the boxes.

These are suits that you will want all the more to see, because of their sound value at a time when conditions are making values in general rather uncertain.

In such smart fabrics as Burella, Scotch Tweeds, Gaberdine, Poiret Twill, Oxfords, Broadcloths and Velvets, you will find military, Russian, conservative tailored, and many other desirable effects

The fabrics are all wool, with that exquisite tailoring you have come to expect in a Wooltex suit. We suggest an early inspection of these unusual suits — exclusive with this store.

FOR CHILDREN'S SCHOOL WEAR

we are offering some splendid values in Wash and Wool Dresses, Raincoats, Cloth Coats, Sweaters, Underwear, Hosiery and Shoes. Special prices on remnants of wool fabrics enough for school dresses.

WOOLTEX GARMENTS

FOR THE GIRL GOING TO COLLEGE

there is nothing she will need more than a pretty serge dress. Our Betty Wales dresses are fashioned especially for her, and there are scores to choose from. Our stocks include all necessities for college girls.

The Mauzy Co.

BETTY WALES DRESSES

Order Your New Autumn Suit NOW

Don't Put It Off---You'll Gain Nothing By Waiting

Our Autumn and Winter Woolens consist of 1,000 different styles ranging in price from

HUMES-BUELL SHOP

NOTICE TO BIDDERS

The Board of Commissioners of Rush County, Indiana, will receive sealed bids up until 2:00 o'clock p. m. on

SATURDAY, OCTOBER 20, 1917,

at their office in the Court House in Rushville, Ind., for the remodeling of certain portions of the basements of the Rush County Court House, Sheriff's Residence and Jail in Rushville, Ind., and the reconstruction of the steam heating system therein, together with certain minor changes in the plumbing and wiring systems in accordance with the drawings specifically prepared by McGuire and Shook, Architects, which documents will be made available to bidders at their offices, 88 Indiana, Pythian Building, Indianapolis, Indiana, and also at the offices of the State Board of Accounts, Indianapolis, Indiana, and W. H. McMillin, Auditor of Rush County, Rushville, Indiana, marked "Proposal," signifying thereon the title of the work and the name of the bidder.

(b) All signatures shall be in long-hand; all blank spaces fully filled in; and the completed form shall be without interlineations, alterations or erasures.

(c) Proposals will be considered singly on the following branches of work: (1) General Construction Remodeling; (2) Steam Heating System; (3) Alternate Proposals.

(d) Each proposal shall be accompanied by a bond in a sum equal to the amount of the proposal and payable to W. H. McMillin, Auditor, Rush County, Indiana, in accordance with the conditions included in the "Form of Proposal and Instructions To Bidders" attached to the drawings.

(e) Before submitting a proposal, each bidder is requested to carefully examine the drawings and specifications, make an inspection of the existing conditions at the buildings, fully inform himself as to all of the limitations thereof and shall include in his proposal a sum to cover the cost of all items contemplated by the contract.

(f) The competency and responsibility of

School! School!

The School Shoe problem again confronts the parents of Rushville and Rush County.

A child to be healthy and rank at the head of his class must have warm, dry feet.

This cannot be done in cheap, shabby shoes.

Bring your children to us. Our shoes are made of GOOD, SOLID LEATHER—the kind that wears and keeps them warm.

Winship & Denning

bidders, of their proposed sub-contractors and of the sureties on their bonds will be considered in making the awards.

(g) The Board of Commissioners does not obligate itself to accept the lowest or any other bid submitted.

(h) A deposit of Fifteen Dollars (\$15.00) will be required of prospective bidders for each set of drawings and specifications taken from the Architects' offices, which amount will be refunded in full in case the following two conditions are complied with, viz:

(1) The return of the drawings and specifications to the Architects within six days of the receipt of their offer, and their return in good condition to the office of the Architects.

(2) The delivery to the Board of Commissioners of a bona-fide proposal at the time and place fixed for receiving proposals. Should the bidder fail in the observance of either of these conditions, he shall be entitled to a rebate of Five Dollars; should he fail in the observance of both conditions he shall not be entitled to a rebate. All rebates will be conditioned upon the return of the drawings and specifications in good condition to the office of the Architects.

By order of the Board of Commissioners of Rush County, Indiana.

W. H. McMillin, Auditor.

Practically All Girl Students Enter Red Cross Classes—Drill For Boys

(By United Press)

C. C. Lyons, a former Muncie newspaper man who married Miss Lula Scott of Andersonville and frequently visits in this city and county, is now a correspondent abroad and he has written a description of a German air raid on Paris which he witnessed.

Mr. Lyons went to France with General Pershing's first expeditionary force. He had to have all of the equipment of a U. S. marine before he could go. Mrs. Lyons and son Scott, age five, endeavored to go with him, but they were advised by government authorities not to because of the child. Mrs. Scott and son were here only recently visiting Mrs. Mary Bohannon and other relatives. They are now in Connersville. Ed Scott of Andersonville and Wallace Scott of Company B, Fourth Indiana Infantry, are brother-in-laws of Mr. Lyons. He writes as follows from Paris:

Here is a picture of Paris as I saw it during a German air raid. A course in military science and tactics was a favorite with the men students. Comrades in the geology department, giving students a knowledge in map reading and topography, were also given considerable attention.

Nearly all of the law students enrolled for military law course and a large class was ready to start the study of aeronautics and construction of military aeroplanes.

At about 11 o'clock the fire department motors pounded the streets blowing siren whistles that aroused everybody from bed. Now that the raid is a matter of history I recall that one of its most terrifying features was the amount of noise the fire departments made.

I was stopping at a hotel whose chief patronage comes from Americans and British. At the first warning blasts, the French bellmen classes will be required to give three hours a week, at least, to military drilling.

"Darken your lights! Darken your lights!"

Soon the hotel was in pitch darkness. The night itself was inky black and the entire city was encircled with thick, low-hanging clouds. There was hardly a star to be seen.

The four sides of the hotel inclose a spacious court. From the amount of gabbling, it was evident that most of the guests were at their windows watching for the German machines.

Across the court, a woman was becoming hysterical.

"Oh George, what shall we do if they hit this hotel?" she implored her husband.

A large audience awaited George's solution. George was quick with repartee.

"What do we care Mabel?" he said convincingly, "we don't own it, do we?"

This venerable joke, cracked for the first time on the Ark sounded exceedingly funny there in the darkness as we waited for the German bombs to fall on us, and George got a round of applause from every opened window.

Anyway, it broke the tension. "Why stay here and be killed? Let's all go down into the street and die," another humorist a few floors down suggested.

It carried unanimously.

In about 10 minutes we were in the street. The fire motors were still rushing by blowing their whistles.

We all went across to the Tuilleries gardens and sat on the stone steps.

But the real situation proved entirely different from the story book description of air raids.

The few Frenchmen out at that hour passed us swinging their canes and chattering about subjects far removed from bombs.

About this time a number of stars appeared in the sky to the east of Paris.

"It will get lighter, and then it will be easier to see 'em," said a Britisher, noting the stars.

But pretty soon the "stars" began to move, and then we discovered that they were in reality French airplanes that had taken to the air to defend Paris against the invaders.

At times it seemed as if the entire eastern sky was in motion as

URGED TO REPORT
PEOPLE IN SERVICE

Persons Knowing Those Whose Names Have Not Been Sent to Committee Asked to Act

ONE MORE HEARD FROM TODAY

Persons knowing Rush county men or women in some arm of the war service, excepting Company B and the sanitary detachment of the firm name of George R. Sider and Fourth Indiana, whose names were not published in the list last week, was heard by a jury in circuit court. The case was sent here on committee appointed by the County Council of Defense to keep a permanent record of Rush county's war record. The committee wants the name of the company, regiment, branch of service, date and place of enlistment, transfers if any, present location, date and place of birth this afternoon. Not much difficulty and names off parents. This information may be sent to any member of the committee—Miss Mary Sleeth, Harvey D. Allen or Will S. Meredith—or it may be sent to the Daily Republican and it will be forwarded to the committee.

One name heretofore unpublished, making eleven in all which have been reported since the first list was published, is that of William M. Winslow, son of Mr. and Mrs. R. R. Winslow of Carthage. He was born Aug. 12, 1898 and enlisted in the regular army Aug. 23 of this year. He is a member of Company I, Tenth Infantry and is now stationed at Ft. Benjamin Harrison.

POPE HAS MADE HIS LAST PEACE OFFER

He Believes War Will go on Until Full Effect of America's Vast Powers Has Been Felt

SEES PEACE NOW IMPOSSIBLE

(By United Press.) Washington, Sept. 19—Pope Benedict has made his last peace offer, according to official cables received here today. He believes the war must go on at least two or three years more—until the full effect of America's vast powers have been felt and either a victory or a hopeless deadlock in the great struggle reached.

The vatican realizes, according to the officials, that peace or further negotiations at present is impossible. President Wilson's rejection of the pope's last offer has convinced the vatican that the allies want no peace which will leave the Central Powers under the present rulers. The pope realizes that the allies, with America's vast resources now thrown into the balance, have the upper hand and can bring from the Central Powers a peace acceptable to the democracies. Any further effort from the pope would be foredoomed to failure it is admitted.

Official cables today state that vatican circles throw out the suggestion of an understanding at least between England and Italy that no peace proposal coming from the vatican shall be satisfactorily considered and that when peace negotiations begin the church is not to be admitted into the conference. These hints go so far as to say that Italy's entrance into the war hinged upon the acceptance of this condition two years ago.

SEWER CONTRACT IS FINALLY AWARDED

(Continued from Page 1) fire committee may find a market for the animal without receiving bids.

The attention of the council was called to a resident in East Ninth street, who is wanting water service. There are no mains in the street near where he lives and it would cost the city about \$100 to supply one man with water. The water committee will investigate.

BURNED CANNING FRUIT

Mrs. Aylett Wimmer of West Fifth street is suffering from severe burns on her left forearm and hand caused by hot paraffin. Mrs. Wimmer was engaged in putting up floral offerings.

MR. and MRS. THOMAS JOYCE and FAMILY. 1611t. Webster's Carbon paper. L. C. Hinier.

ACCOUNT SUIT IS HEARD BY A JURY

Case of Milking Machine is Invoiced in Case of Wagner Against Sider and Son

SPECIAL JUDGE TOMORROW

The case of Gurthia Wagner against George R. Sider and Niles Sider doing business under the firm name of George R. Sider and Fourth Indiana, whose names were not published in the list last week, was heard by a jury in circuit court. The case was sent here on committee appointed by the County Council of Defense to keep a permanent record of Rush county's war record. The committee wants the name of the company, regiment, branch of service, date and place of enlistment, transfers if any, present

location, date and place of birth this afternoon. Not much difficulty and names off parents. This information may be sent to any member of the committee—Miss Mary Sleeth, ever heard of the case.

The case of Michael Madden against the City of Rushville will be heard tomorrow by Myron C. Jenkins of Greensburg, who will act as special judge. The suit is on a claim for labor alleged to have been performed for the city under the former administration.

TURN NOW TO FIXING FORM OF GOVERNMENT

Russian Provisional Government Directs Energies Towards Constitutional Assembly

TO FIX ELECTION MACHINERY

(By United Press.) Petrograd, Sept. 19.—The cabinet crisis settled, the Korniloff revolution quelled, and plans for reorganizing the army under way, the provisional government today turned its energies towards preparing for the constitutional assembly which will fix Russia's form of government.

Active steps were begun throughout the nation to establish boards and the complicated machinery by which delegates will be selected for the constitutional conference on December 11. Premier Kerensky from the army front, where he is aiding in the quelling of the Korniloff revolution and in planning the reorganization of the whole army, issued a proclamation expressing the government's thanks to the committee on public safety formed at the time of the Korniloff rebellion.

He asks that they now dissolve, their function having ceased to be a necessity.

WILL NOT ACT ON THE APPEALS NOW

(Continued from Page 1) this reason it is likely the district board will reopen the case.

Mr. Gary stated this morning that the claim of the first man drawn in this county, Vern Lower of near Homer, had not been taken up by the district board and it is not known why the board took up the Smelser case first when he is farther down the list than Lower. Hereafter the men going to the Louisville camp will be selected in the order drawn as this can be done as soon as the district board acts on the claims. It has always been maintained by the local board that if the first man drawn was not given an exemption he should be the first man to go and this will likely apply in making up the third increment of forty per cent which will leave on Oct. 5.

The men leaving for Louisville on Friday will report at the clerk's office tomorrow afternoon at two o'clock. The men will be instructed and a leader appointed. The men will leave over the Pennsylvania at 7:10 a.m.

CARD OF THANKS

We desire to thank our neighbors and friends for the kindness and sympathy extended to us during the illness and death of our darling son and brother. Also for the beautiful fruit and the paraffin splashed from a pan striking her hand and arm.

MR. and MRS. THOMAS JOYCE and FAMILY. 1611t. Webster's Carbon paper. L. C. Hinier.

PROCRASTINATION

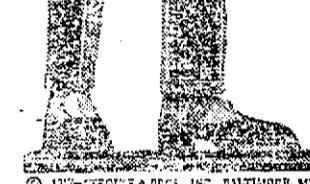

In the affairs of the alert business man, procrastination is an unknown quantity

However, when it comes to the matter of securing that new Fall suit or overcoat, he is only too prone to put off its purchase until the season is not only far advanced but until best selections are no longer to be had.

Apply the principles of good business to the purchase of your Fall wardrobe. Do it now and do it here! You will secure 100 per cent. service, style and value for every dollar you expend.

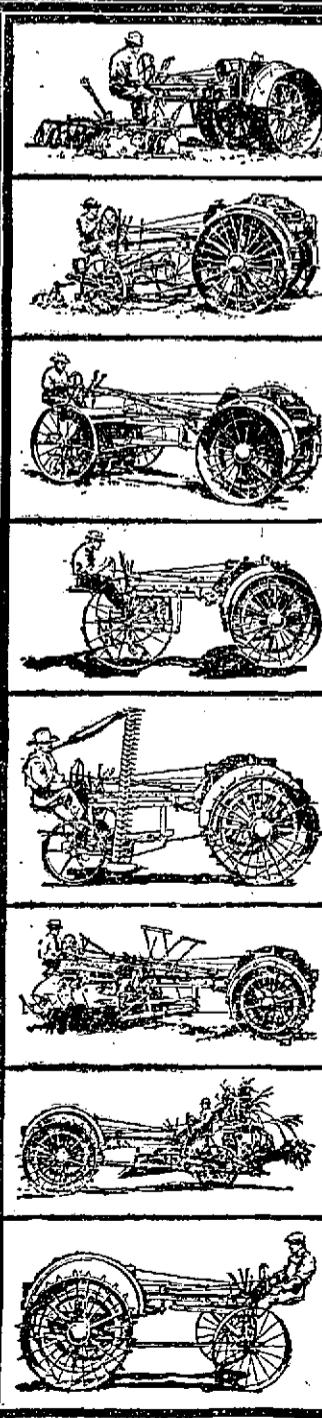

HIGH ART CLOTHES

MADE BY STROUSE & BROTHERS, INC., BALTIMORE, MD.

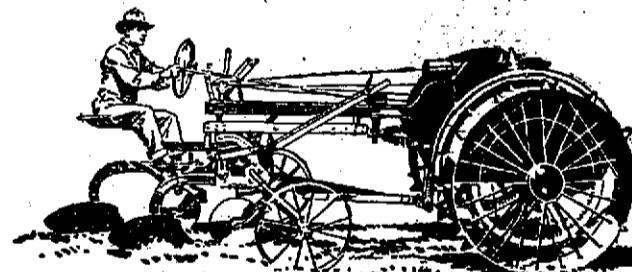

loom large in the assortment. They are the choice of so many men—we are confident they will meet your requirements.

MOLINE Universal Tractor

As Powerful as 5 Horses
 Does as Much Work as 7 Horses
 Costs Less than 4 Horses
 Requires Less Care than 1 Horse
 Less Room than 1 Horse
 Eats Only When it Works

The Ideal Tractor

No other tractor on the market will do such a great variety of work, nor is as correct in design and construction as the Moline-Universal. It makes the horseless farm possible. It pulls the usual 5-horse load—will do as much work as 7 horses, owing to its greater speed and endurance. It can be used for plowing, harrowing, planting, cultivating, hauling and harvesting—in fact, all field work, and will deliver 12 horse-power on the belt.

A Real One-Man Outfit

The Moline-Universal is easier to handle than any other tractor, weighs the same, turns in a 16-foot circle and will back with the implement attached. It is compact, simple, close-coupled, a wonderful puller and carries no dead weight. And best of all, it is operated from the seat of the implement attached. This permits one man to operate both tractor and implement.

Cut the Cost of Horse Labor

The cost of horse labor is almost one-half the gross operating expense on the average farm. A farm horse averages out 15 hours work a day during the entire year, and lives in six. It costs from 12 to 14 cents per working hour to maintain a horse, and requires 23 minutes a day to care for him, or fourteen ten-hour days a year.

And yet there isn't enough power to plow as deep as scientific methods require; to harrow more frequently, so that organic matter will be utilized, moisture conserved, and a good state of soil maintained; to cultivate more frequently, and to harvest at the proper time.

Let us tell you how the Moline-Universal Tractor can reduce the cost of power on your farm. It will pay you.

DEAF MUTES MEET
 Bristol, Ind., Sept. 19.—The tenth annual conference of deaf mutes of 1611t.

Northern Indiana was held here to-day. Lectures were delivered by prominent workers of the state.

Opening dance at Glenwood, Thursday night, Sept. 20th.

Webster's Carbon paper. L. C. Hinier.
